Park's Flower Seeds.

AT UNIFORM PRICES.

For many years Park's Flower Seeds have been known as the best to be obtained, either in quality or vitality. There are none better. And yet, the prices are uniform, and within the reach of all who cultivate flowers, notwithstanding the increased business expenses.

Please Note These Terms:

| 1 Packet | 17 Packets | .75 | 48 Packets | $2.00 |
| 5 Packets | 23 Packets | $1.00 | 61 Packets | $2.50 |
| 11 Packets | 35 Packets | $1.50 | 75 Packets | $3.00 |

PARK'S FLORAL MAGAZINE, a charming floral monthly devoted entirely to flowers, is included for a year with every order of five or more packets of seeds. If already a subscriber two extra packets, my selection, choice kinds, will be sent instead of the Magazine. A very few packets are quoted at 10 cents, and if any of these are wanted count each as two packets. Thus, for 25 cents you will get three 5-cent packets and one 10-cent packet instead of five 5-cent packets. All seeds are in 5-cent packets, unless noted.

My Friends, you can depend upon the seeds I sell. To insure vitality a few seeds of every lot offered are tested, and if not satisfactory are condemned. The quality is insured by obtaining from special growers. My best wishes for success go with every packet, and I accompany it with cultural directions; and in my Magazine I give special hints upon any floral topic. Floriculture has been my life-work, and the information imparted is practical and reliable. You are thus assured of success if you buy of me. I pack carefully and deliver promptly by parcel post or express. I insure safe arrival; I correct all errors; I give you prompt service. My seed-house is thus brought to your door, and you will receive the same attention as though at my place in person. I aim to give every patron a square deal, and will do even more than justice and fair dealing demand in order to please my friends.

And now I await your order, large or small, and thank you in advance for it. Will you not kindly get a club for seeds and Magazine? I shall much appreciate a club order. Send for agent's outfit. Florally,

GEO. W. PARK, Seedsman, Florist and Publisher,
LaPark, Lancaster, Co., Penna.

How to Remit.—Sums of $1.00 or more remit by draft, money order, or registered letter. Smaller sums in silver coin in a coin card or sewed in split pasteboard, or in 1-cent or 2-cent postage stamps. Always send enough money to pay for the seeds ordered. I guarantee the safe arrival of both money and seeds.
Asparagus.—Mr. Park: Some time ago I got a packet of your Asparagus Sprengeri and planted it in a box, and every seed grew and made a plantation. So I have had plants to hand all this winter, and we have seen cold. They are elegant window-plants.—Mrs. E. Jewell, Randall, Wis., Nov. 28, 1916. See page 29.

Park: Your Orchid-flowering Snapdragon (Antirrhinum) for the finest flowers I ever saw. Everybody who went by had to stop to admire them. Some of the plants were over three feet across, and just full of flowers. The bed showed all the colors of the rainbow.—Inez Pettie, Chelmer, Ws., Oct. 22, 1916. See page 4.

Purtteman:—Mr. Park: Your Orchid-flowering Snapdragon or Antirrhinum did exceedingly well. They are easily grown, begin to bloom early, and remain in bloom until the snow falls. There is such a variety of colors and shades, and many are handsomely variegated. The plants will live over winter and bloom another season, or they may be cut back, potted, and placed in the window to bloom over winter. I was much pleased with them.—Mrs. Emma Perry, Newport, Ky., Nov. 13, 1916.

Aquillegia.—Mr. Park: The first flowers to greet us last spring were of Aquilegia vulgaris and what a spectacu-

Calendula.—Mr. Park: Calendula is a very deserving hardly annual, easily grown, and I got from you, and I hope from that source, the finest blooms. They all bloomed over the summer, and were a rival of the Chrysanthemum after frost destroyed most of the garden flowers.—Stella G. Weber, East Earl, Pa., Nov. 10, 1916. p. 23.

Canna.—Mr. Park: I raised some fine Cannas from your mixed seeds. They were the admiration of all who saw them. Single bloom of a bright red color measured four inches across, while a yellow spotted one measured six inches. They were beautiful.—M. O. Baum, Exira, Iowa, Nov. 21, 1916. See page 21.

Cranberry Bells.—Mr. Park: I have never seen the equal of your Cranberry Bells in size, fullness and color. They have been single and double, and also had some of the cup and saucer class. I shall grow them again.—Ella M. Buffum, Lackawana, N.Y., Dec. 6, 1916. p. 23.

Dianthus.—Mr. Park: I wish your patrons could have seen the bed of Dianthus of which I have written you. I have raised from a packet of your mixed seeds, I start the seeds in a widow box and set the plants out. They grew and blossomed with but little care. How beautiful were the flowers, in such a variety of colors and varieties. I cover my bed with leaves during the winter, and the plants bloom well the second year.—Naomi Ingalls, East Earl, Pa., Nov. 10, 1916. See page 12.

Goldflax.—The Japan Pinks are bright and beautiful, easily grown, bloom freely the entire year, and last until winter. The flowers are single and double, of many colors, and markings, showy in the garden and for cutting. Try them.—A. G. Clark, Clarkston, Va., Dec. 10, 1916. See page 27.

Eschscholtzias.—Mr. Park: Eschscholtzia or California Poppy was indeed a joy to see. All of my friends admired the blooming plants and asked me what they were. I told them, but they had never seen cold. They are golden bloom, the leaves being almost as handsome as the flowers. They make a beautiful bed or border, and are so easy to grow. I give them Emma Perry, Newport, Ky., Nov. 10, 1916. See page 13.

Hibiscus.—Mr. Park: The Marsh Mallow Hibiscus is one of the prettiest of seed to grow of any variety of Perennials, and one of the most showy and beautiful. It likes a wet place, but will grow and bloom in the garden. The flowers are large and produced throughout summer, colors from white to deep crimson. My seedlings were ready to transplant in 28 days after the seeds were sown.—Fritz Gardiner, West Haven, Conn., Nov. 10, 1916. See page 24.

Impatiens.—Mr. Park: Those who do not know Impatiens Sultana have missed a treat. It is a persistent bloomer—growing all winter in sunshine or shade, and in summer in pots upon the porch, or bedded out. The plants are as easily grown as those of the Touch-me-not or Balsam that mother used to grow in her flower garden.—C. M. Moser, Wayne Co., Miss., Nov. 20, 1916. Page 11.

Kenilworth Ivy.—Mr. Park: Your seeds of Kenilworth Ivy came up in a tumble, and grew so vigorously that after being dug up and fully filled a 1-inch brass basket, and bloomed continuously, the envy of all.—Mrs. L. T. Gage, Topesa, Kan., Nov. 21, 1916. See page 14.

Orchids.—Mr. Park: For groups on the lawns or in borders and large beds, nothing can equal a flower effect than Ornamental Grasses, and they are easily grown from your seeds. Treat them, Sheeb, Co., Wis., Nov. 28, 1916. See page 21.

Pansies.—Mr. Park: Two years ago I purchased a packet of your Large-flowered Pansy seeds. They bloomed the same season, and were simply grand. They all wintered nicely with little care. I got from you, this summer they were the finest in the city. I counted one hundred and forty blooms on one plant, the whole time on the snow-white plant. Many pages have one and one-half inches across. Even now I have Pansy blooms, although it has been freezing every night for two weeks. Try them.—D. H. Snowberger, Fayette Idaho Nov. 11, 1916. See page 18.

Petunias and Phlox.—Mr. Park: My Phloxes and Petunias bloomed this year in perfection. The ground and the ground was soon covered with little plants. I needed them and stirred the soil as well as I could between the plants, and now they grow as thick as grass. I have an id mass of flowers all summer. The Phloxes went to seed, as I did not pinch the flowers picked off, so I broke the tops off, and in a short time they were as thick as grass, covered with flowers until freezing weather. They both make a grand show of flowers, but no care.—Anna W. Pratt, LaSavannah, Minn., Nov. 17, 1916. See page 19.

Poppies.—Mr. Park: I bought a packet of Perennial Poppies seed from you last year. They grew rapidly and attracted the attention of every one who saw them. They bloomed this year, and the flowers were 18 inches in cir-

Primula Chinesis.—Mr. Park: Those who want a few blooming plants in the window during winter should get a packet of your Primula Chinesis. They are easily grown from seeds, and will give a wealth of bloom in a rather cool but frostless room.—Mrs. Wm. Orchard, Pacific Grove, Cal., Nov. 21, 1916. See page 30.

Sweet Williams.—Mr. Park: I could not be without Sweet Williams. I start plants every year, and thus I always have a bed of them. They are showy, of rich varied colors, and make a fine ground cover for a brilliant display.—S. T. Hinrichton Springfield, Ill., Nov. 10, 1916. See page 22.

Verbenas.—Mr. Park: My Verbenas were a mass of blossoms all summer long. When the drought ruined many other flowers, it never affected my Verbenas. They endures droughts and hot weather, and are very hardy.—A. G. Tombleson, Wis., Nov. 10, 1916. See page 29.

Park’s Flower Seeds Always Reliable.

Park’s Floral Guide 1916.—This Guide contains a pronouncing and geminating table, and descriptions and illustrations of almost every flower. I have a few copies left and will be glad to sell to any person who applies. When you order seeds, however, use the Guide for 1917. GEO. W. PARK, LaPalg.
Some Good Things Specially Recommended.

**Hibiscus Meehan's Hybrids.**

These Hybrids are beautiful. The plants grow five feet high, stocky, forming massive clumps; every stalk bears freely immense, Hollyhock-like flowers, ranging from white to deep crimson, the display lasting throughout the season. The plants are perfectly hardy, and can be depended upon to bloom freely for several months every year. I take pleasure in urging my friends to get this splendid herbaceous perennial, for I know those who get it will be delighted, and feel thankful that their attention was called to its superior merits. Started early the plants bloom the first summer. Finest mixed colors, 5 cents. Give them a trial.

**Nelumbium Speciosum.**

This is the Egyptian Lotus, the most beautiful and desirable of hardy water plants, and the most easily grown. The enormous bluish-green leaves held well above the water, and the magnificent flowers from eight inches to a foot across, pink shading to canary at the base, held aloft on strong stems, calls forth the praise of every passer-by. These, too, are excellent for cutting. I can supply fresh seeds at 5 cents per packet, and dormant tubers (during May at $1.00 each). Order promptly. Cultural directions sent with both seeds and tubers.

**Antigonon Leptopus.**

This is the Mountain Rose vine, easily grown from seeds, and exceedingly beautiful. It will grow 30 feet high, the leaves graceful, bronze-green and very attractive. The flowers are in big, curving masses, in great profusion, and are of a brilliant, pleasing carmine-rose, appearing as a gems in a setting of bronze-green. The roots are hard tubers, readily kept over winter in a frost-proof cellar, and started again early in spring, per pkt 5 cents. I wish everyone of my friends would try this splendid vine. It deserves highest praise.

**Choice Seeds Omitted from Body of List.**

- **Acacia**, splendid Pot Shrubs, pretty foliage and golden flowers. Armatia, Dealbata, Lophantha, sep or mixed.
- **Agrostemma** Coi1-rose, new Dwarf, blotted and striped, beautiful in masses. Pretty garden annual, mixed.
- **Antenaria** Margaritacea, a hardy perennial evergreen, 2 feet high, flowers white in large clusters, dye well.
- **Aerva** Sieboldii and Mosoet, both elegant pot plants. Large tropical foliage, beautifully colored, mixed.
- **Aurino** phrazemites, hardy Marsh Reed, six feet high, with large, handsome clusters of blue flowers.
- **Basil**, Dwarf, Purple, a compact, bushy herb, with fine purple foliage, very desirable for pots.
- **Beau**, Florida Velvet. Robust vine, flowers and pods showy, good for pot or shrub, and the foliage is beautiful.
- **Blumenbachia** insignis, a pretty, hardy annual, taller from Chili, white, red, yellow, an inch across.
- **Borodale**, Colcus Excelsior, a beautiful variegated-leaved sort, showy in beds, lovely green and white.
- **Bosa**, Veraviona, a fine pot plant, with dense trusses of small red berries, rare and handsome.
- **Brynia** dioica, a pretty perennial gourd-vine with scarlet fruits, fine for basket or trellis.
- **Buphthalmum** cordifolium, hardy perennial, 8 feet high, with handsome golden flowers in autumn, showy.
- **Cajanus**, Sesquipedatus, 6 feet high, with handsome flowers, and the foliage is beautiful.
- **Catania** coriaceus, a fine hardy garden perennial, two feet high, with pretty, showy blue flowers.
- **Caterpillars** and Snails, seed-pods like striped or hairy caterpillars and snails, garden annuals, odd, mixed.
- **Celsicia** Positiva, and **C. pyramidalis**, dwarf, with large feathery panicles of bloom, mixed.
- **Chelone** gibara compacta, a new French Chelone, allied to Pentstemon. Dwarf, free-blooming, mixed.

**Dioicea Gypcinoides**, a pretty pot-trellis vine for the window large racemes of showy red flowers.

**Escallonaria** floribunda, a pot shrub, bearing large, loose white clusters of beautiful bloom. Hardy south.

**Gypsophila** Rokokeda, a tall strong-growing perennial, bearing delicate rosy pink flowers, fine for bouquets.

**Helium** autumnale superbum, 5 ft, golden bloom. H. Sigelovii, hardy perennial, bearing golden flowers with black center, fine for cutting, new. H. Riverton Beauty, flowers rich lemon with large black zone, very striking, fine for cutting; the foliage is beautiful.

**Heliopsis** Pitcheriana, the small perennial "Orange Sunflower", 4 ft high, golden bloom, very desirable.

**Hibiscus** palustris, a splendid shrub, 5 ft high, with large, showy flowers, white with purple eye.

**Lianthus** Russelianus, a very beautiful new Texas flower, 2 ft high, flowers large, very attractive.

**Linaria**, Large-flowered purple, new, French Improved Honesty, blooming early, showy, hardy, very fine.

**Melia Azedarach**, fine pot plant with panicles of pretty, fragrant lilac flowers.

**Seneio** Clivorum, new Chinese perennial with shining green leaves and golden brown-centered flowers.

**Stachysepalphy** mutabilis, magnificent pot plant. Bears long spikes of crimson flowers changing to rose.

**Sunflower** Maximilians, hardy, late-flowering, ten feet high, bearing an abundance of showy golden flowers.

**Symphyandra** Hoffmannl, large, tree-like plant two feet high, white bell in profusion, Delicate.

**Tetervium** Chamedry, 8 inches high, shining leaves, purple flowers. Thrives on walls, rocks, and as an edging.

**Vetchnia** speciosa, six feet, annual, large orange-red flowers, free-blooming, new, showy.

**Valeriana** congesta, a pretty little annual of easy culture, with charming rose flowers in clusters.

Park's **Floral Magazine**

This is the oldest and most popular periodical of its class in the world. It is neatly printed, freely illustrated, original, and practical, and devoted entirely to the interests of amateur florists. It keeps you posted upon new flowers and plants, improved methods of culture and diseases, and gives the latest news of the florists. It is a treasury of floral information, and the index makes each volume a valuable work of reference. Advertisements are not sandwiched between reading, and can be removed in binding. Are you a subscriber? If not, send 10 cts. for the 1898 catalog, and 10 cts. for the Magazine a year and 10 cts. 68 pages illuminated, distributed to a club in every community. Send for my liberal terms, free. You can earn all of your seeds and bulbs by a little effort in getting up a club. Write today. Address GEO. W. PARK, B. Sc., Ed. and Pub., LaPark, Lanc. Co., Pa.
Some Floral Notes.

Before ordering please read over these notes. I recommend only what I feel will please and satisfy my friends.

Agaveatum. The new Mauve Beauty has large mauve flowers in large clusters, and the plants are compact and very free-blooming. See page 3.

Ameranthus Tenuifolius. Grows 4 ft. high, with bronzy leaves and immense plume-like drooping panicles at the top. Makes a gorgeous group, and blooms all summer.

Aster. The semi-dwarf forms have been the most popular. They are the new Snapdragons in England. I believe they will be more than satisfactory to all who try them: Electra, Golden Beauty, Cadet, and Blondette, a new strain. See page 4. Intermediate varieties. These are all of compact habit, the flowers very large, on long spikes, and of new, novel colors. They are ideal for the garden or for cutting. See page 5. Aster, Branching, Improved. I ask special attention to this fine strain of Asters. The plants are vigorous, branching freely for their flowers are large, showy, and fine to cut. They look well in a bed, fine for cutting, see page 5. Vick's Branching White, imported from England, is said to be a greatly improved strain.

Balsam, Double, new French sorts. Among omitted seeds are two new French varieties of Double Balsam, Flore Red and Satin Charme. These are very fine, free-flowering, and showy, and the colors are particularly large and double as well as beautiful. I supply them separately. See page 7.

Calendula, Large-flowered, Double. This is a grand annual, either for summer and autumn beds, or for pots in cool winter quarters. The flowers are large, of all colors, and of the easiest culture. It does not mind heat or frost, always in bloom. Lemon, Red, Striped, mixed. See page 7.

Caterpillar Bells. Dean's Improved Hybrids, are from England, and considered far superior to the German Caterpillar Bells. I believe they will be found all that is checked on page 27.

Chrysanthemum, New Dwarf Golden Gem. I wish my friends would try this new Annual Chrysanthemum of the coronaria class. Their flowers of soft and bushy, and becomes a globe of rich golden double flowers, splendid for either pot or beds, 25 seeds 5 cts. It was omitted in making the Guide. See page 11.

Cosmos, New Giant-flowered. This is a race of early-flowering annuals, like the following sorts, in double Fringed, which comes in mixed colors. See page 11.

Daisy, Monstrous Double. These Double English Daisies are of monstrous size, very double and showy. The plants grow in tufts, and become a mass of big attractive bloom. I have white, rose and red, in colors or mix. They are dwarf and compact, and are as good as they are beautiful. Be sure to get a packet. See Bellis, p. 8.

Erysimum Dwarf Compact. The flowers are large, golden for its 10 cents. A glorious bed of gold in the spring, sown in spring blooms in fall. Much like Wallflower, p. 12.

Euphorbia. Very effective, as shown in the Guide. The plants grow erect, bloom very profusely, make a fine edging or border. Finest mixed colors 3c.

Eriobotrya Japonica, Japanese Plum. Prized as fruit by some people. Fruit fine for pies or stewing, has a sub-acid taste much like our cherry.

Ficus Carica, Fig, choice, mixed.

Frankenia ericifolia, a fine basket plant, also fine for pot flowers. Plants pink, bountantly produced.

Godetia, New Compact, mixed. This also was omitted. The plants low, bushy and covered with large, showy flowers. Mixed colors. See page 13.

Gossypium, Cotton. Upland and common sorts, fine ornamental plants. See page 19.

Heliospis Petersoniana, a showy, hardy perennial 3 ft. high, bearing large, handsome, golden flowers all autumn. The flowers are large, showy, and the plant makes a wonderfully attractive bed, may also be sown in autumn to bloom the following spring. Flowers are double of red or pink colors. Try the following:

Lupinus Douglass, new, not listed. This is a cross between Annual and Perennial Lupins, and bears showy blue and purple flowers, very fine, blooming from early spring. A novelty of great value.

Marigold, French Dwarf, from selected plants, finest mixed. Very double, lovely flowers of many colors and varieties. Imported from England.

Melothrina punctata, gourd-climber for a pot trellis. If planted in a pot, it blooms through the winter.

Nasturtium, improved. This is the finest of the species for making a bushy bedding plant. A fine pot plant.

Passiflora caerulea, the Passion Flower, will bloom in pots year round. It is easy to grow, and blooms through the summer and fall.

Poppies. If you want a glorious bed of rich-colored bloom sow seeds of Double Umbrosa Poppy. The plants grow 3 ft. high, and bloom very profusely. They are said to be hardy up to 10,000 ft. high. Perfect for the garden. See page 18.

Punea, or Sunflower. Sown now, a fine little flower for the garden or the pot. They are easily grown as the common Sunflower, and make a fine show plant. Give them a trysting to date. If surpassed by any variety of Sunflower, I consider it done. See page 20.

Wallflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.

Winterflower. A very showy flower for the pot and garden in pots in winter. Winter blooming, freely produced, fragrant. A favorite flower for the pot.
Park's Choice Flower Seeds for 1917

GENERAL LIST OF THE FINEST VARIETIES

M Y FRIENDS, on account of the European War it is impossible for me to obtain seeds from my German growers, and so I have to somewhat abbreviate this list, as I have in past years been importing seeds from Germany that can be obtained in no other country. You who have been dealing with me, however, know that what I offer is first class, and my terms this year are even better than last, although there has been an increase in business expenses. Terms:

<table>

Packets priced at 10 cents count as two packets. A year's subscription to Park's Floral Magazine, a charming floral monthly, is included in all orders of 5 packets or more. Or, anyone ordering a 10-cent packet and adding 5 cents (15 cents in all) will get the Magazine for a year.

I want a big club from every community. Will you act for me? If so, I shall gladly send you a subscription outfit and liberal terms. Address

Seedlings Blooming First Season.

Ageratum, Fine Large-flowered.

Here is one of the most showy and desirable of plants for general cultivation. Seedlings are easily started and begin to bloom in a few weeks, the plants increasing in size, becoming a globular mass of elegant blue, azure, white or pink clusters, as indicated in the engraving. They revel in hot sun, bear drouth well, and are splendid for beds or edgings in summer or pots in winter. The tall sorts grow three feet high, the dwarf ones from six inches to a foot.

Dwarf Varieties.

These grow from six inches to a foot high, and are more dense and profuse than the taller sorts. They are especially valuable for beds, borders, edgings and pots. My seeds of these are of the finest strains, and can be depended upon.

Imperial Dwarf Blue, a foot high, rich blue.

Imperial Dwarf White, similar, but white.

Swanley Y8, light blue, beautiful, large blooms.

Blue Perfection, dwarf, lovely big blue flowers.

Little Dorrit, dwarf, fine light yellow.

Princess Victoria Louise, blue, white center.

Mauve Beauty, new, compact, large mauve flowers; very free-flowering; fine for beds or edgings.

Little Blue Star, miniature plant, compact, with small blue flowers; fine for edgings or rock-work.

Tom Thumb Red Pearl, red flowers, very dwarf.

Dwarf varieties carefully mixed.

Tall Varieties. These grow from two to three feet, and are fine among low shrubs or in mixture; the plants are loose and graceful, the clusters being borne on long stems. Mexican cornells, blue; Mexican alba, white; and Mexican lutes, yellow. Tall varieties in mixture.

Complete special mixture of all the above, Dwarf and Tall, carefully prepared.

Wendlandii, French Dwarf, blue, white; separate or mixed per packet. 10c.

(All varieties and mixtures named in this Guide are supplied in packets at 5 cts per packet, except the kinds quoted at 10 cents. These will count as two 5-cent packets. See terms above.)

Mr. Park,—Why is Ageratum not generally grown? It is one of the loveliest of blooming plants, and easily grown from seeds, easily transplanted, and becomes a mass of delicate blue feather flowers, continuing until killed by frost. No flower gives greater returns for the trouble and expense. —Mrs. M. L. Duke, Prattsburg, Ala., Nov. 10, 1896.

Abronia umbellata, sand Verbena, showy, fragrant flowers in Verbena-like clusters. Likes sandy soil and hot sun.

Adonis Estivalis, summer-blooming; Autumnalis, fall-blooming. Both bear fine-cut foliage and red-cupped flowers. Separate or mixed.

Ethionema Buxbaumii, annual; pale lilac.

Agrostemma colli-rosa, pretty annual a foot high; bloom in masses. White, purple, striped, mixed.

Alonsoa grandiflora, scarlet; Miniata compacta; Mutisi compacta, rosy chamois; Myrtifolia, scarlet; Warszewiczii compacta, fine for pots.

Amaranthus, foliage and flowering plants of easy culture, like a dry sunny bed. Abyssinia, Amabilis tricolor, Bicolor Rubra, Brilliant, Gruentis, Hypochondriacus, Margarita, Monstrous, Grifflamme, Quadrilocular, Superbus, Tricolor Giganteum, Tricolor Monstrous, Tricolor splendens or Joseph's Coat. Separate or mixed.
Antirrhinum, Improved, Fragrant.

The new sorts of Antirrhinum or Snapdragon are surpassingly beautiful and useful. They are classed in three races—Tall, Intermediate, and Tom Thumb. The tall varieties grow three feet high and bear long spikes of bloom from the entire summer. They are especially valuable for a screen or summer hedge, and for a background. The Intermediate are preferred for beds and borders, growing 18 inches high, and making a glorious display all summer. The Tom Thumb sorts grow six to ten inches high, and become globular masses of bloom. I have the finest large-flowered and new sorts, and those who sow my seeds will be highly pleased. The flowers are of the richest colors and variegations, and all are deliciously scented. Fine for cutting.

**TALL VARIETIES.**

**Album** rubro-stratium, white striped red.
**Brilliant** scarlet, white and yellow variegated.
**Chamaeleon** new, very handsome salmon.
**Carmine** King, new bright carmine, white throat.
**Crescendio** crimson scarlet, rich and showy.
**Cornal** Red, new and attractive color.
**Dellis** Carmine, yellow and white.
**Firefly** scarlet and yellow, Adamsome.
**Fire King** scarlet with orange.
**Galiath** crimson with white throat.
**Kermesina** splendens, brilliant crimson.
**Luteum** yellow, distinct variety.
**Major** rubro-stratium, yellow striped red.
**Papilionesamus** blood red, white throat, splendid.
**Purple** and yellow, very pretty.
**Queen** Victoria, very large, satiny white, fine.
**Roméo** deep rose, handsome.
**Roseum** pale rose, white throat.
**Striatum** finest striped varieties.
**Vienna** new.
**Vienna** Double-flowered White, also Double-flowered Yellow.

**Tom Thumb Varieties.**

**Album** white.
**Kermesina** crimson.
**Roseum** striatum.
**Tom Thumb** sorts in mix't re.

New Fragrant Orchid-flowering.

This is a race of compact, semi-dwarf varieties embracing the little-art shaded, and handsomely marked, and marked, some lovely pink and blush, shading into orange and terracotta. This is the new-plus-ultra of Snapdragons, and cannot be surpassed. It is sure to delight all who cultivate it. Price, 10 cents per packet.

Complete mixture of all the above fine Snapdragons, Tall, Intermediate and Dwarf.

Mr. Park—The Orchid-flowering Snapdragons are such an improvement over the old varieties in coloring, strong growth and longer spikes, that they are among the most valuable flowers that can be readily grown from seeds. Seeds sown the first of April will bloom early in July, until late fall. Mrs. Treadwell, Sheb. Co., Wis., Nov. 23, 1876.

**Anemone coronaria**, the Poppy Anemone, large, showy white, red and blue flowers. S. B. rigid mixed.

**Arctotis**, an annual that delights in a dry sunny bed; grows a foot high, and bears large, bright showy flowers. Breviscapa orange. Grandis lavender, separate or mixed.

**Argemone,** hardy annuals from Mexico, 2 feet high, crisp, vernal foliage and large, showy Poppy-like blooms, good for use in dry soil and hot sunshine. Graniflora white, Mexican, yellow; Hybridi, of various colors; all sorts mixed.

**Aster** amellius cornuta, a lovely annual, 1 foot, with flowers gold, spotted brown. Very pretty.

**Artemisia** annua, often known as Sweet Fern, because of its fragrant, Fern-like foliage; three feet high, fragrant in dry soil and not very.

**Asperula** Azurea setosa, an annual a foot high; dense, branching, globular growth, every branch tipped with clusters of small, blue, fragrant flowers.
Aster, Park's Fine Bedding.

This splendid Aster grows from ten to twelve inches high, and set eight inches apart the plants afford a grand display of large showy double flowers throughout autumn. Colors are very rich and distinct, and as each plant branches and bears many flowers the effect is hardly surpassed. I supply four packets of seeds for the bed illustrated, as follows: Center, Blue; next White; outer ring Red, and the bed margined with Sweet Alyssum. The packets are proportioned to afford an abundance of plants for the bed, and the price for the four packets is only 25 cents. The packets separately will cost 10 cents each. Make the circles eight inches apart, and set the plants eight inches apart in the circles. Mulch the bed with stable litter when the plants begin to throw up flower stems.

Aster, Late Branching.

This is perhaps the most popular of Double Asters. Plants grow two feet high, and become a waving mass of big double flowers produced upon strong stems. In beds they last for weeks and are wonderfully attractive, and when cut there are no autumn flowers more lasting, showy or beautiful. I offer choice seeds of the most charming colors, as follows: White, Peach Bloom, Rose, Crimson, Violet, Gray Violet, Deep Pink, Dark Blue, Shell Pink, Lavender, Chantress, separate or mixed.

Mr. Park—My packet of mixed Aster seeds was a great success. I sowed them in a window box in February, transplanted to a sunny bed when 2 inches high, every one grew, I had the largest Asters I have seen, all shades of white, pink and lavender.—Mrs. E. H. Dixon, Hockessin, Del., Nov. 5, 1895.

Aster, Pompon Crown.

This Aster is always greatly admired because of its full double flowers in rich colors, strikingly contrasted with pure white centers. The plants branch and form handsome clumps, covered with bloom during autumn. They make a fine appearance in a bed, and the flowers are charming in a vase. I offer very choice seeds of this fine Aster. Lilac, Magenta Red, Rose, Red, Violet, separate or mixed.

Betteridges Quilled, the finest of quilled Asters; two feet high; large, showy flowers, mixed.

Boltz Dwarf Bouquet, a very dwarf sort, the plants appearing as a bouquet of fine double flowers of various colors set upon the ground; mixed.

Cardinal, fine brilliant scarlet, branching habit; an English sort.

Christmas Tree, plants grow in the form of a Christmas Tree, small double flowers, rich colors, n.s.

Grego, large, very double, one of the finest. White, Shell Pink, Dark Pink, Blue, Red, separate or mixed.
Aster, Victoria.
Large, Open, Full-double flowers. Surpassingly Beautiful. Plants a Mass of Rich Bloom. All the Finest Colors.

The Victoria Aster is a very old variety, but still holds its own among Asters, as it has been much improved by careful cultivation and selection. The petals are broad, charmingly imbricated, very large, and showy in beds, and valuable for cutting. They appear in a wonderful variety of shades and colors. One of the very best of Asters. White, Peach Bloom, Gray Violet, Indigo Blue, Salmon Yellow, Light Lilac, Magenta, Mauve, Rose, Hortense Red, Dark Red, Light Yellow, separate or mixed.

Mr. Perk:—On account of the dry weather my Victoria Asters did not grow tall but they were full of buds and blossoms of many colors, very double and beautiful. I used the flowers for bouquets, and they lasted three weeks. Some plants lifted and potted for the house lasted longer.—Mrs. F. H. Brown, Scipio Landing, Ohio.

Chrysanthemum-flowered. Dwarf Perfection mixed. New English Chrysanthemum-flowered, said to be a grand improvement upon the older class.

Crown or Cockade, a very elegant Aster, the flowers large, of various colors with a pure white center. I offer very choice seeds of this superb Aster, mixed colors.

Early Hohenzollern, large, fluffy double flowers; finest mixed.

Early June, the earliest of all Asters; 15 inches high, fine for beds, flowers large, double, white.

Earliest Parisian White, a very early white double Aster; very fine for an early bed.

Giant Comet, 2 feet high, branching, one of the finest; flowers very large, frilled, and beautiful, finest colors mixed. This splendid Aster makes a fine bed.

Gigantea, large-flowered; a new French sort with showy flowers of various colors; mixed.

Globe Pyramidal, an elegant Globe-flowered Aster; showy in beds; finest mixed.

Goliath, the largest and finest Exhibition Aster, flowers of various colors, and very attractive.

Half Dwarf Multiflor, double flowers in richest colors: a fine Aster; mixed.

Japanese, fifteen inches high; flowers very large, double and fluffy, like a Japanese Chrysanthemum; finest colors mixed.

Lilliput, dwarf plants with lilliputian double flowers of great beauty; mixed.

Perfection mixed, a choice mixture of the improved Ternary-flowered; plants two feet high; flowers very double, and of the richest colors.

Pyramidal Sorts mixed, a superb mixture of the finest, such as Pyramidal Quilled, Victoria, Chrysanthemum-flowered.

Queen of the Earliest, a splendid very early sort; White, and Garnet Red with White Edge.

Aster, Truffauts.

This is the finest Aster of the Incurved class. The plants grow tall, each branch holding an immense double flower which lasts for weeks. In a bed the plants make a striking display throughout autumn, the massive flowers in richest colors waving in the breeze giving a charming effect. The flowers are also fine for cutting for vases, or for corsage flowers. Set plants ten inches apart. Colors: Snow-White, Rosy-White, Amethyst, Chamois, Flesh Color, Lilac with White Edge, Magenta-red, Negress, Rose, Coppery Rose, Cherry Red, Cinnabar-Red with White Edge, Blood Red, Light Violet, and Dark Violet, separate or mixed.

Aster, Improved Ostrich Feather
An Aster equal in size and beauty to any in the Comet section. The petals are long, narrow, loosely twisted, forming immense fluffy flowers, and are borne on long, strong stems. The plants grow two feet high, branch freely, bloom abundantly, and are very graceful and beautiful. One of the finest Asters. White, Flesh-colors, Lilac, Gray Violet, Copper-red, Rose, Coppery rose, Salmon-rose, Violet, Red, Terra-cotta, separate or mixed.

Aster, Chrysanthemum Dwarf.
One of the handsomest of Dwarf Asters, desirable for beds and pots. The plants grow a foot tall, and bear large, showy, full double flowers on long stems. Autumn-flowering, Red, White, Lilac, Flesh, Copper-scarlet, Magenta Red, Rose, Hortense Rose, Scarlet-red, Violet, Light Violet. I also supply all the others in splendid mixture.

Ray Aster, outer petals broad, inner narrow; mixed colors.

Sada Yakka Grandiflora, an improved Sada Yakka; flowers soft Pink, large and double.

Silver Cloud, a lovely dwarf Aster showing a mass of white flowers—a silvery cloud of bloom.
Aster, New Autumn Queen.

Flower and Plant of New Queen Aster.
This is a very handsome new Aster, later than Queen of the Market. The plants are of vigorous growth, bearing large very double flowers upon long, strong stems. A splendid sort for beds or pots. Colors are Snowdrift, Azure Blue, Fiery Scarlet, Delicate Rose, Carmine Rose, Dark Blue, Deep Salmon, Rose, separate or mixed.

Queen of the Market.
Early Flowering, Flowers of Medium Size, Double to the Center. Lovely Colors.
A very beautiful double Aster blooming early in the season, and a favorite for beds as well as for pot-plants to sell at the flower market. The plants bloom three weeks earlier than other varieties. Grow from 12 to 15 inches high; very free-blooming. My seeds are saved from carefully selected stock, much improved. White, Blush, Bright Rose, Bright Blue, Deep Scarlet, Seal Red. I can supply these varieties separate or mixed.

California Branching. This is similar to other Branching Asters, but a strain grown in California, and said to be very handsome. The plants grow two feet high, bear large, full-double flowers, and the colors are rich and varied. Splendid for beds and unsurpassed for cutting. My seeds are direct from the growers of this Superior Branching Aster. Colors: White, Pink, Crimson and Blue, also mixed. Per packet 10 cts for either separate colors or mixed.

Aster, Large-flowered Single.
This class of Asters grows two feet high, bearing large, Daisy-like flowers upon long stems, very graceful and beautiful. The flowers last well, and are fine for cutting as well as for a display in beds. Colors are White, Rose, Red, Light Violet, separate or mixed.

Soliel d'Or, large yellow, quilled; the best. Triumph, a Dwarf Peony-flowered Aster with rich, blood-red flowers; showy in beds or pots.
Vick's Branching White, special selection, much improved; very double; best for late cutting.
Victoria Needle, needle-like petals, double; mixed colors.
Violet King, strong grower; long, stiff stems; Color soft violet-lilac; fine for cutting.
Complete special mixture of all varieties.

Aster, Perennial.
Very Profuse Blooming. Seedlings Bloom First Season. Rival the Chrysanthemums.
I take pleasure in offering very choice large-flowered varieties of Perennial Aster, plants of which are perfectly hardy, grow three feet high, and become a graceful, waving mass of lovely single flowers throughout late autumn. They are showy in the garden and elegant in a vase, as the illustration indicates. Easily grown from seeds, healthy, hardy, never troubled by insects, and never fail to bloom profusely every autumn. Should be in every garden. Varieties:
Bigelowii, light blue, large, fine flowers. Cassiarabicus, in many colors, mixed. Novae-Angliae, large, handsome, mixed. Snowflake, white; very profusely bloom. All sorts, large-flowered, in complete mixture.
The Double Balsam is one of the easiest grown and most satisfactory of annuals, as well as the most beautiful. The plants (except of Dwarf sorts) grow from two to three feet high, and every branch becomes a lovely wreath of exquisite bloom. Easily transplanted, and should be set a foot apart.

The seeds I offer are of very superior quality, and will not only grow, but yield the finest flowers.

**Park’s Camellia-flowered.**

This is the finest of all Balsams. The plants grow vigorously and make a fine display in a bed, blooming freely and continuously for many weeks. If started in summer and grown in pots the plants are fine for winter-blooming. I offer the following splendid colors: Pure White, Pure Scarlet, Rich Crimson, White reflecting rose, Light Yellow, Lilac, Violet, Bright Salmon-rose, Rose spotted, Violet spotted, separate or mixed.

**Double Rose-flowered.**

Large, very double flowers in a great variety of colors, mixed.

**Double Dwarf.**

Ten inches high, free-blooming, the flowers semi-double, of many colors, mixed.

**Double Spotted.**

Semi-double, of many colors, mixed.

**Carnation-striped.**

Semi-double, finely striped, mixed.

**Royal Balsam.**

King Red: Queen, Satin Rose, mixed.

**Solerina.**

Double White, handsomely spotted and striped.

**Goliah.**

Tall, fine double. Chamae Rose.

Complete Special Mixture of all the above varieties.

Mr. Park:—Last Spring I planted some Camellia-flowered Balsam seeds, that grew about two feet high. The branches were covered with blossoms much like a double Rose. I never saw any flower to equal this beauty.—Mrs. J. R. Turner. Mentor, Minn., Nov. 18, 1915.

**Basil.**

Sweet, an herb with deliciously-scented foliage; fine pot plant.

**Brachycome.**

**Caesalia.**

Flora’s Paint Brush, small brush-like flowers in clusters on long stems; hardy annual; 15 inches high; reproduces from self-sown seeds; fine for cutting. Yellow, Scarlet, or both mixed.

**Calandrinia.**

Low spreading succulent annuals, showy throughout the summer; useful for beds or edgings; like a sandy, sunny bed. Rose, White, Purple, also mixed.

**Calceolaria scabiosafolia.**

A pretty little annual ten inches high; flowers small, compressed, of a lovely yellow, and freely produced; a handsome pot plant.

**Callirhoe.**

Easily grown, handsome Mallow blooming freely and continuously. C. pedata grows erect to the height of two feet, and will bloom late, defying the autumn frost. C. involucrata is a trailing perennial excellent as a bedding plant. The flowers of both are a rosy carmine, about the size and form of a single Portulaca. Separate or mixed.

**Cannabis.**

Ghost of Piedmont, an annual growing eight feet high, branching and making a fine large foliage plant. Useful for a screen or group. Seeds useful for birds.
Clarkia—Finest Varieties.

When visiting the big Seed Farms of Germany, some years ago, the beds of Clarkia were in full bloom, and I realized as never before the beauty and utility of this fine annual. The plants grow a foot high, branching in tree form, and are a mass of lovely flowers in many colors. Anybody can raise them from seeds, and a good-sized bed in full bloom will be sure to delight those who see it. By all means give this annual a trial. I offer seeds of the finest improved varieties, and heartily recommend them to all my patrons.

Sow in rows eight inches apart and thin to six inches apart in the rows; or, sow in the nursery bed and transplant. 

Elegans Double Rose, White, Salmon, Striped, Scarlet, Carmine, Pulchella Brilliant Red, Margined, Pulcher-rima Double, Violet, mixd.

Mr. Park—Your Clarkias are especially beautiful, like dainty Roses; bloom freely all summer, fine for cutting. —Mrs. Carson, Auburn, Md., Oct. 15, 1916.

Mr. Park—I sowed your Clarkias where sheltered from noon sun, and had lovely big double flowers of all colors; they were fine.—Ella Buffum, Lackawanna, N. Y., Dec. 6, 1916.

Calendula Grandiflora.

An excellent hardy annual of easy culture; will grow a foot high; branching, and is covered with bloom throughout the season; flowers large, double, various shades of yellow; some are striped; it blooms well after frost, rivaling fall Chrysanthemums. Colors: Orange, Sulphur, Orange-striped, Sulphur-striped; also Pongeii fl. pl. white, Ranunculoides fl. pl. and Single White Pluvialis. I supply all of these separately or in splendid mixture.

Mr. Park—Your Calendulas are beautiful, large, lasting annuals. They seem prettier late, after the other flowers have gone. —H. Werdelin, Rochester, N. Y., Nov. 15, 1915.

Campanula, annual. Charming yearly annuals, seedlings beginning to bloom early, and bearing a profusion of blossoms. C. quambrana is fine for baskets or edgings, blue and white; Lorel, blue and white; Pentagonia, blue; Longystyla, large, lovely violet blue; Macrotyla, superb violet flowers; Speculum, Venus Looking Glass, fine blue. Separate or mixed.

Canna, Gladiolus—flow’d

I heartily recommend the Gladiolus-flowered Cannas, as they will grow in any rich, moist sunny soil, and make a grand display of both foliage and flowers throughout the season. No flower makes a more attractive display, and no bedding plant blooms more freely or continuously. The flowers range in color from nearly white to deep crimson, including rich golden shades and variegations. The mixture I offer was saved the past season from the finest named bedding varieties, and will surely please all who sow it. I offer only mixed. I do not offer separate colors this season.

Mr. Park—My Canna’s from your seeds were splendid. They were of many colors, and bloomed as early as those grown from tubers.—Mrs. Tanner, Caron Mill, Ills., Nov. 14, 1916.
Carnation, Improved Early.

The Improved Carnations I offer begin to bloom in four months after the seedlings appear, and bloom freely till frost. They are hardy, and will come into bloom early the following season and make a fine display during the summer, if not allowed to become exhausted. The plants like hot sun, some shade and deep, moist soil. They are improved by mulching with stable litter during summer. I offer carefully named seeds that can be depended upon to produce the finest flowers. White, Yellow, Red, Striped; separate or mixed.

I can also supply French Early-flowering Giant in mixed colors.

For other Carnations see under head of Perennials.

Mr. Park:—The Large-flowered Early Carnation seeds I bought of you gave me the finest lot of Carnations I ever had. There were seventeen different colors and shades. An immense double fringed salmon-red, and one, a beautiful light salmon-pink, were especially admired by many passers-by. I thank you for two years of daily pleasure, and all that for one packet.—Mrs. Bailey, Selma, Calif., Nov. 25, 1916.

Mr. Park:—Last summer I got a packet of your Early-flowering Carnation seeds and planted them in August. They had a few flowers, but very little, and in the spring they came out in all their glory. I never saw such fragrant flowers as they were. People passing along the street would smell their fragrance and stop and get some of the flowers. The only fault I found with them was I never had any for myself, as the passers-by always got them.—D. H. Snowberger, Fayette, Idaho, Nov. 11, 1916.

**Calliopsis**
very pretty, attractive flowers freely produced on slender stems; desirable for growing in beds or masses, and for cutting. The Tall sorts grow two feet high, and can be used upon low shrubbery or in beds; the Dwarf grows a foot high, and are fine for borders or edgings. Once started the plants continue from volunteer seed. Sow in fall or early spring. Dwarf Compact in Yellow, Crimson, Marbled and Bicolor, also mixed; Tall Mixed; Bicolor Hybrids, double. Tom Thumb Crimson King and Tom Thumb Beauty; Tintoria Dwarf Purpure, Crimson, Marbled, and Yellow and Black. I also offer a Complete Special Mixture of these sorts, double and single.

Mr. Park:—Your varieties of annual Calliopsis are very satisfactory. I saw where the plants are to bloom, and the plants become wearing masses of beautiful golden flowers with dark center; fine for cutting; will re-seed. —Bessie E. Siple, Woolwich, Me., July 23, 1916.

**Candytuft**, annual, old-fashioned garden flowers of easy culture; make a very showy and beautiful bed; grow a foot high, and become a sheet of bloom. Tall varieties: White, Carmine, Purple, Rose Cardinal, Durnett's Crimson, Sweet-scented white, separate or mixed. I also supply the Hybrid Dwarf Sorts in White, Rose, Crimson and Lilac, also mixed.

**Capsicum**, Ornamental Pepper. These are very decorative plants either in the garden or in pots for the porch or window. The fruits are of many shapes, colors and sizes. All are edible. I have a grand collection, as follows: Black Nubian, Cardinal, Cayenne Yellow, Cestial, Chinese Giant, Cherry-fruited Red, Chili Red, Columbus Red, Dwarf Chilli, Early Dwarf Red Squash, Extra Early Bell, Golden Dawn, Hurrules, Japanese Scarlet Cluster, Keleidoscope, Large Bell, Large Sweet Spanish, Little (see, Large Red, Long Yellow, Miniature, Baby King, Square Sweet Chinese, Tomato-fruited Yellow, Tom Thumb, Yellow Nocera. Separate or mixed.

**Cardus Marianus**, a handsome plant with white veined foliage and brush-like pink flowers: Benedictus, the Holy Thistle; Kerner, tall, with big purple-red flower heads. Separate or mixed.

**Carthamus tinctorius**, Garden Saffron; a showy golden-flowered annual growing six feet high.

**Catchfly**, Silene armeria, a pretty, hardy annual a foot high; flowers small, Red and White, in clusters. Propagates from self-sown seeds. Separate or mixed.

**Celosia**, Cristata, Coxcomb. Elegant as bedding plants, and desirable for pots. They begin blooming when small and are large masses of handsome flowers, having a different color and shade from the previous year until frost. Easily grown, and very showy. They are sun and good soil; should stand eight or ten inches apart in a bed. The Dwarf sorts grow eight inches high, with large broad combs, the massive foliage covering the bed, and making a fine setting for the bright combs. Colors: Golden, Sulphur, Crimson, Cardinal Red, Fire-kissed, Chicago Prize, Orange, Glasgow Prize, Empress, also all in mixture. Empress is the best for bedding purposes.

Mr. Park:—I always thought the description of Coxcomb Celosia was an exaggeration until this year we raised a bed that measured 18 inches across. They are no more trouble to raise than Sweet Peas.—Mrs. Royo, Palacios, Texas. Sept. 25, 1916.

**Celosia Magnifica** is the improved plume-flowered, two feet high, gorgeous in a bed, also fine for pots. Colors: Crimson and Gold, separate or mixed. I also supply Dwarf Plum mixed, Pink Plum, Button, Japonica and Spicata. Also all sorts in complete mixture.

**Centaurea**, Cyanus, Bachelor's Button. A fine hardy annual, showy in the garden and splendid for cutting. As a button-hole flower it will often last for two days, and it appears well in small bouquets. Easily grown, and will re-sow. The Tall sorts grow two feet high, branchy, and can be used combined with bedding colors. Colors: White, Azure or Emperor Wm., Rose, Variegated, Brick Red, Mixed, Double, Orange, White, Black, Lilac, Gold, Purple, Azure, Mixed Dwarf Compact sorts, a foot high, good for beds; in colors Victoria Blue, White, Rose, Variegated, Mixed.

Mr. Park:—I have Centaureas from your mixed packet were fine. I raised so many plants, and they bore flowers of so many different shades! I cut a lovely bouquet of the flowers late in October and it Cole, Neb., Dec. 6, 1916.

**Centaurea**, various species, as Depressa Blue; Moschatgh, Blue, White, Purple, mixed; Imperialis. White, Blue, Lilac, Giants, Bistort, Althea, Yellow, Red, mixed. Dwarf, Dwarf Sorts, a foot high, good for beds; in colors Victoria Blue, White, Red, White, Yellow, Orange, Mixed.

**Centaurea**, various species, as Centaurea, Star of the Country, White, mixed, Variegated; Centaureas, mixed, annuals, white, pink, and red; in clusters.

**Centaurium**, an annual two feet high, bearing bright yellow flowers. Set six inches apart. It will bloom all the summer.

**Cerinthe**, odd but not showy annual; yellow and brown flowers; a good honey plant. Mixed.
**Chrysanthemum, Annual.**

**CHRYSANTHEMUM BRIDAL ROBE.**

The Annual Chrysanthemums are among our best flowers for either garden or window. Started in boxes early and transplanted to eight inches apart they make a showy bed or border, the plants growing fifteen inches high, forming a dense mass of bright, attractive flowers from early summer until after frost. C. Carinatum is the most valuable, the flowers coming in single and double forms, and in various colors; the single-flowered in some-like flowers of the distinct zone of charming in a bed, and last in bloom till winter. The dwarf varieties of C. coronatum are C. Inodorum Bridal Robe is a biennial with full-double flowers, fine for cutting. Started in early autumn the varieties of C. carinatum are

**CHRYSANTHEMUM CORONARIUM DOUBLE.**

C. Carinatum, Single, White, Yellow, Scarlet, White with Crimson zone, Rose, Yellow with Scarlet zone, or mixed. Double Purple, Dunnett White, Fringed in various colors mixed, Golden yellow with yellow foliage, mixed. Dwarf Double, splendid, in Purple, Yellow or Scarlet, separate or mixed.

**COSMOS.**

A splendid annual. The new Hybrids grow four feet high and bloom profusely from mid-summer till frost; the Mammoth sorts grow eight feet, becoming masses of bloom in late autumn. I offer choice seeds of the best strains. Large-flowered Hybrids, early-flowering, elegant in a bed, or for a screen. White, Crimson, Rose, Purple, Klondyke, separate or mixed. Mammoth Purple, Rose White, Lady Lenox, mixed. Also Complete Special Mixture Mr. Park—Your Cosmos is the best of free-blooming annuals. Its dainty lace-like foliage and brilliant flowers make it fine for cutting—R. M. Roads, Hillsboro, Ohio.

**Centranthus Macrosiphon, succulent plants** a foot high, covered with pretty little flowers in dense clusters; bloom freely till frost. White, Red, mixed.

**Cerastium Biebersteinii,** a hardy dwarf perennial with hoary foliage, forming a carpet, from which the white Daisy-like flowers appear upon long stems.

**Chenoa stigatiza,** a pretty annual eight inches high; flowers soft Rose in dense clusters.

**Chenopodium ambrosioides,** a handsome, free-blooming, ambrosia-like plant.

**Cheiranthus Maritimus, Virginia Stock,** pretty little annuals blooming quickly and freely from seeds; grow in masses; started in autumn they bloom well in pots. Crimson, White, Carmine, Yellow, Mixed.

**Cleome, Spider Flower.** An annual growing three feet high, branching and producing showy spikes of graceful flowers throughout summer and autumn. Gigantea White and Crimson, Pungens and Speciosissima all mixed.

**COLEUS.**

Easily grown from seeds, very beautiful in foliage, elegant for beds and fine for pots. I offer seeds of finest quality, imported from England, France and Holland. Seedlings quickly become showy plants. Fine mixture Mr. Park—For novelty and beauty I like the Coleus. Hardy two seedlings are alike. Planted together they make a showy bed.—Mrs. Orchard, Pacific Grove, Cal., Nov. 21, 1916.

**Clintonia pulchella,** blue, white, variegated, elegans, separate or mixed. A pretty annual not unlike Lobelia; free-blooming and fine for baskets and pots.

**Collinsia Bicolor,** a showy and very desirable annual two feet high, bearing whorls of lovely flowers of white, blue, carmine, variegated. Separate or mixed.

**Collomia coccineus,** an annual a foot high, the flowers scarlet, in clusters, showy for several weeks.

**Convulvus Minor, Dwarf Morning Glory,** a Petunia-like annual blooming all summer; flowers not unlike Morning Glory, somewhat smaller, but very bright and beautiful, and of many rich colors. White, blue, Acaulis, Crimson-violet, Striped, Sub-corneus, Tricolor, Purple, Separate or Mixed. A very beautiful, easily grown garden flower.

**Cosmidium Burridgeanum, Orange Crown,** a new and beautiful sort: plants a foot high, bearing freely pretty Calliopsis-like flowers, long stems, golden, yellow with a broad circle of rich orange around the disk.

**Crepis, Hawkweed,** an easily grown annual; flowers pink, white and golden yellow; showy in a bed and good for cutting. Separate or mixed.

**Cuphea,** pretty little plants quickly coming into bloom from seeds; make a lovely bed, and are charming in borders. Minima Red, White, Purple, Mixed.

**Cynoglossum,** annuals three feet high, branching and forming dense little trees bearing a profusion of pretty bloom much liked by bees; take the plants. Celestium blue, and Linifolium white, separate or mixed.
Dahlias, Single and Double.

As Easily Grown as Zinnias. Seedlings Bloom about as Early as Tuberosous Plants. Rich, Varied Colors. Single Flowers as Beautiful as Double.

Dahlias can be raised successfully from seeds by anyone, and the plants will begin blooming in mid-summer and bloom freely till frost. Sow the seeds in a window box early, and transplant to a sunny bed, after the first frost. I have seeds of the finest strains, both double and single. The single flowers are very graceful and beautiful, and by some are preferred to the double.

Single-flowered. The Hornsby's Giant Hybrids mixed, new strain from Holland; Striped and Spotted. French Gentian mixed; Cornuta or Crowned; Neck-ruflle mixed; Odorata Grandiflora. All mixed. Single-flowered Tom Thumb, Dwarf, finest mixed. Double-flowered, extra fine mixed; Cactus-flowered mixed; Lilliput mixed; Dwarf mixed; Double sorts mixed. All pkts of Double Dahlias are 10 cts.

Mr. Park—J raised some of the finest Dahlia I ever saw from your seeds—as fine as any named kinds. I had all colors from dark red to yellow, also striped and double, mostly blooms profusely from mid-summer till after frost. I also supply the Hybrids in mixed colors.

Among the most common are the Double and Single Colors. They are raised from the seeds of your mixed Dahlias, single and double. The plants bloomed almost as early as those from tubers.—Mrs. N. A. Farber, Haswell, Col., Dec. 1, 1905.

Dianthus Chinensis.

Blooms First Season. Single and Double. How to Cut Flowering.

Among the most beautiful and easily grown and lasting of Garden Flowers. Seedlings bloom the first season, and are showy till after frosts. The flowers are rich-colored, often strikingly variegated, make an attractive bed, and are excellent for cutting. My seeds are of superior quality.

Redhead

Single Rose, White, Cream, Pink, Yellow, Red.

Redhead

Double, Beautiful, Blood Red, mixed.

Laciniatus

Double Fringed; Salmon Queen, Snowdrop, Lilac, Orange scarlet, striped, Blush, Mallow pink, Cornual pink, or red.

Laciniatus

Single, Zonale Salmon red, Punctata or Princess Pinks, Orantes, Mirabilis, separate or mixed.

Nobilis

Royal Pink, Rabb's Pink, var. shades.

Nobilis

Striped, Double, Beautiful, Blackfish brown.

Nobilis

Shell Pink, Salmon, Scarlet, Striped Blackfish brown.

Dentatus

Hybrids, lovely Pink of various colors with a distinct eye.

Stellarii

The lovely Star Pink with narrow fluffly petals. Also Complete Mixture of all varieties.

Mr. Park—I raised the Dianthus from your seeds were wonderful. I raised a bed of Fireball, another of Snowdrop, and another of Striped, all 3 inches across, and there was such a profusion. They equal Carnations in beauty, but lack the fragrant. How much pleasure a person can realize from the small investment of 5 cents for a packet of F. Turner, Mentor, Minn.

Mr. Park—I could raise but one kind of flowers, I would choose your Chinese Dianthus. Seedlings bloom the first season, and are showy till after frost, and in mixed. Plants last for years and years. The Dianthus is a lovely flower, they were grand—over; color, and just like violet.—Mrs. Greenawald, Hicksville, O. Nov. 15, 1905.
Eschscholtzia.
Showy, Free-blooming, Ever-blooming Annual for Beds and Edgings.

This is one of the bright, beautiful, ever-blooming annuals; it grows a foot high. Sow where the plants are to bloom, and thin to eight inches apart. The plants form a dense array of silvery, fine-cut foliage, above which the showy, cup-like flowers appear in wonderful abundance. Also fine double-flowered sorts. Large: White, Striped, Sulphur, Orange, Rose, Cardinal, Carmine King, Douglassi, Golden West, Rose Queen, Calliclata Rose, Mikado orange-scarlet, Mandarin Rose, separate or mixed. Double: White, Sulphur, Orange, Striped, Rose, Orange-shaded, Crimson. Separate or mixed. Single and Double in Complete Special mixture.

Eucharidium, hardy annuals allied to Evening Primrose, flowers rose, white, and purple, Mixed.

Euphorbia, annuals with showy variegated bracts; 18 inches high, showy throughout autumn. E. Veseta and Heterophylla mixed.

Eutoca Visida, very free-blooming, beautiful little annuals eight inches high; bloom early from seeds; flowers blue, lilac and white, separate or mixed. Feidia, a Valerian-like annual six inches high; flowers red, pretty, in corymbs. Floribunda, mixed.

Pemlia Dianthiflora, a lovely little annual bearing masses of white and pink flowers, charming for borders and edgings. Colors separate or mixed.

Gamolepis Tagetes, a dwarf annual having the general appearance of a Marigold; flowers small, golden, like a small single Marigold; profuse blooming.

Gilias in Variety. These are very beautiful annuals of easy culture. G. Achilleifolia grows a foot high, and has clusters of bloom at the summit of the branches. G. Compacta is similar, light blue. G. Compacta Nivalis is a dwarf sort with white flowers. Perhaps the most charming is G. tricolor, very pretty variegated violet, yellow and white; and there are several varieties as white, rose and violet. All are very attractive annuals, and call forth enthusiastic expressions of admiration. I enumerate the sorts: Achilleifolia, blue, white, rose, al.

so mixed. Calipata cerulea, lavender, blue, white. Minima cornua, blue, fine. Nana Compacta Nivalis, light blue. Tricolor, three-colored; Snow-White; Splendens, rose. Violet; separate or mixed. Special mixture, all sorts.

Gauria Lindheimeri, a handsome perennial three feet high, blooming the first season; flowers white.

Gerardia Hybrida, beautiful hardy perennials that bloom the first season; foliage fine-cut, and flowers tubular, of various colors, borne in long spikes.

Glaucom Tricolor, the finest of the Glaucums; plants two feet high, branching, and covered with large, Poppy-like flowers, yellow, orange and brown.

Gaillardia.
Splendid for Beds. Bloom Freely from June till Winter. Fine for Cutting.

The annual Gaillardias are very desirable annuals easily grown from seeds. The plants stool out and bear waving masses of showy flowers on long stems. In a bed they make a fine display, and for cutting they are a favorite. The varieties of G. pecta show flowers of various colors, single and semi-double. G. Lorenziana, double-flowered, are very handsome and free-blooming. G. Grandiflora is a hardy perennial, blooming the first season, and is perhaps, the finest of the lot.

GODETIA.

Here is an annual of rare beauty, easily grown, a foot high. A bed of them in full bloom is wonderfully attractive. Colors range from white with spots to deep glowing crimson; all are splendid, and make a magnificent display. They will surely please you. Sow the seeds in the bed, and thin the plants to six inches apart.

Duchess of Albany, silvery white with spots.

Fairy Queen, white shading to bluish, crimson spots.

Gloriosa, dark red. Rubicona, splendor fl. p., red.

Grandiflora Carmine, double, new, very showy.

Maculata, white with crimson spots, fine.

Rosa, fl. p., large-flowered, bright rose.

Marchioness of Salisbury, white with rosy pink center.

Princess Henry, satin rose with broad crimson spots.

Rosamond, large, glossy light pink flowers, attractive.

Schamini grandiflora fl. p., bright rose, beds or cutting.

Whitneyi pyramidale, fine carnage, Pearl, white.

Compacta, brilliant, dazzling carnage. Complete mixture of all varieties.
**Helianthus, Sunflower.**

**Big Showy Plants. Single and Double. Hardy Annuals. Easily Grown.**

I offer a fine collection of the Annual Sunflowers. Some grow nine or ten feet high, the stem thickly clothed with leaves; others branch and assume the form of a tree. Some bear single flowers of large size; others bear densely double flowers. Some are dwarf, only three feet high. Colors range from sulphur to golden yellow and brownish red. Another class bears small yellow flowers, showy in beds, useful for cutting. Bloom early and continue for months.

**Large-flowered.** Single: Leucanthemum, very tall; Malope gigantea; Tall Russian; Primrose-colored; Peruvian, compact; Bismarckianus very large flowers; mixed.

**Large-flowered Red.** New; shades of brownish red, mostly appearing as a broad zone; some almost all red. Select, 19 cents; common sorts 5 cents. Golden Nigger black-eyed; Sulphur Giant, black center.

**Large-flowered Double.** Globosus festusula, very double, gold and flowers; Gigantea planetissim, double; Oculatus viridus, very double, center green; Nanus fl. pl., dwarf double; Nanus folia variegата, foliage blotched white; Multiflorus fl. pl., many flowered; Dwarf Double Quilted.

**Miniature Sunflower.** Star-shaped Double, twisted petals: Single, golden yellow, black eye; Cucumerifolius, yellow; Agryrophytum; Compact Perkeo; Helios, golden Purpureus, brownish red; all mixed.

Complete mixture of Large and Small, Single and Double.

**Hibiscus—Mallow.**

Showy annuals and perennials. Flowers large, of various colors, and when once started the plants take care of themselves, as the annuals re-seed, and the perennials are hardy.

**Africanus grandiflorus, hardy annual; flowers large, yellow with dark center; re-seeds; like a sunny place.**

**Manihot** Sunsat, plants 5 feet high, of pyramidal form, bearing golden flowers, dark eye; often six inches across. Start early and transplant. Makes a fine pot plant.

**Manihot** laciniatus, a variety with deeply-cut foliage and large flowers. The above sorts mixed.

**Hebenstretia** comosa, African Mignonette, a foot high, branch; spikes of white fragrant flowers. Once started it will retain its place by self-sewn seeds.

**Hunnemannia**, the Mexican Poppy, two feet high; flowers cup-like, orange, very handsome. Sow early in a warm sunny bed.

**Ice Plant.** see Mesembryanthemum crystallinum.

**Jonaspidium** acaule, Diamond Flower; a neat little carpet plant; flowers bright violet, in profusion; pretty for carpeting beneath pot plants.

**Lavatera Trimestris.**

**Beautiful Annuals. Dense, Profuse-blooming Plants. Large, Fine Flowers.**

Lavatera trimestris deserves to be popular. Plants start readily from seeds, soon begin to bloom, and are a mass of flowers till after frost; grow three feet high; flowers are like small Hollyhocks, White, Red and Rose. Elegant for beds. Colors separate or mixed.

**Kaufussia** amelloides, hardy annual composed with Blue, Crimson and Rose flowers; very pretty. Separate or mixed.

**Kenilworth Ivy.** Linaria cymbalaria, a handsome basket and carpet plant for dense shade.

**Kochia** tricophylla, Summer Cyprus; dense fine foliage annual two feet high; green in summer, red in autumn; fine for a low hedge.

**Laantenia** Californica, a composite annual a foot high, with bright yellow flowers an inch across.

**Layia** annuas a foot high; flowers Daisy-like, yellow with white margin, also white, and mixed; showy in beds and useful for cutting.

**Leptosiphon** little flowers covered with a profusion of charming White, Rose, Carnation, Scarlet and Lilac flowers. Hybrids are especially beautiful. Mixed.

**Leptosyne** composite annuals blooming quickly; handsome in beds and fine for cutting.

**Leucanthemum**, Ox-eye Daisy. The Improved kinds have large, handsome flowers, showy in the garden and excellent for cutting. They are hardy perennials, lasting for years, and bloom most of the season.

**Linnum** Douglasii, a prostrate hardy annual, producing a great abundance of yellow, white, and red flowers; like moist, rich soil; 5 feet high.

**Lazarus** elegant plants mostly growing a foot high, the flowers Snapdrag-like, on long spikes; colors white, purple, yellow, orange, carmine and violet. Anemoides Golden Gem, in fine spikes; Bracteata splendens, dark violet; also white, yellow, striped and mixed; Moroccan hybrid-tussilago, mixed: Reticalta aurea carmine, aurea-purpurea and mixed. Cymbalaria gibosa, dwarf, globular, for beds and pots; Cymbalaria white, and Cymbalaria’s blue, both for baskets and carpeting beds.

**Linum Grandiflorum**, graceful annuals a foot high, exceedingly showy in beds or groups; Rubrum red and Roseum rose. Carnuline blue, also both mixed.

**Lotus Jacobsenii** Pea-shape, very tall; flowers Pea-shape; mix. 5 feet high; flowers Pea-shape, black-purple, in clusters.

**Lupinus,** Showy annuals from a foot to three feet high; flowers Pea-shape in up-right spikes; Colors blue, white, pink, purple, variegated. Alhambra deep blue; Cruickshank hybrid blue shaded white, yellow and purple; Hartwegi rose, blue, mixed; Irisssus blue, rose, white, mixed; Hydrusus Afrococcus, dark scarlet; Latifolius Romulus, yellow, large; Latius nilus, white; Nanus, dwarf, blue, scarlet, rose, white, mixed; Subernar by, azure blue, fine. All sorts mixed.
**Marigolds in Variety.**

Although old-fashioned, Marigolds are among the most attractive and satisfactory of annuals, anybody can grow them, and they grow as well at the south, or in the arid, sandy plains of the west as in the fertile valleys of the east.

**Double French Marigold.**

No garden is complete without a bed of the beautiful improved Marigolds here offered. Be sure to include a few packets in your order. Tagetes S. Pumila is a glorious edging plant.

**Double African.** Tall, Orange, Sulphur, Lemon, El dorado Quilled, Fustulosa sulphurea, separate or mixed.

**Double French.** Tall, Orange, Gold-striped, Dark Brown, Quilled Brown, Quilled Yellow, separate or mixed.

**Double French.** Dwarf, Orange, Sulphur, Quilled Orange, Gold-striped, Spotted, Yellow, Golden Ball, Aurora, sulphur, separate or all mixed.

**Lobelia.**

**Elegant Vase and Edging Plants. Dense, Profuse-blooming, Everblooming.**

The annual Lobelia are superb free-blooming plants, seedlings beginning to bloom early, continuing in bloom throughout the season. They are beautiful as edgings, for forming a blue carpet, for pots, baskets and vases. If started in mid-summer they bloom well in winter. I offer a fine collection, and my mixture is unsurpassed. All of my seeds bear a high test.

**Eринус.** Barniards Perpetual, blue, white eye, fine for baskets and pots; White Lady, white; Paxtoniana, blue and white; Speciosa, dark blue, dark foliage; Kermesina, crimson; Prima Donna, velvety maroon; Pearl, white with blue edge; Crystal Palace, dark blue; separate or mixed.

**Compacta.** Duplex Rosea, rose; Duplex dwarf, mixed; Golden Queen, yellow foliage; Bedding Queen, dark blue with clear white eye; Royal Purple, blue, white eye; Snowball, white, fine; Kermesina oculta, crimson with white eye; White Gem, pure white; Belle de Moray, new fine; Compact sorts separate or mixed.

**Ramosa.** Large-flowered, showy, handsome species showing several fine colors. Rose, White, Celestial Blue. Separate or mixed.

**New Hybrids.** Pendula Amanda, rose lilac passing to amaranth red, white eye; Miranda, bright rose purple, clear white eye; Hamburg, sky blue with white eye, very fine; Sapphire, large, deep blue, with pure white eye. Hybrids separate or mixed. Complete Mixture of all varieties.

**French.** Lilliput, Small Marigolds, rare and pretty, Brown with gold margin, Spotted, Single Yellow, Margined, separate or mixed.

**French.** Single, Dwarf, fine for beds or edging. Legion of honor, Gold-margined, Silver King, Striped, mex. Tagetes Signata Pumila, a dwarf, dense plant a foot high, covered with a mass of golden bloom in autumn. Fine for beds or edgings. Tagetes Lucida, small golden flowers in tufts, deliciously scented; everblooming, fine.

**Lychnis.** Beautiful perennials, blooming well the first season; flowers bright and showy, in clusters; easily raised from seed; make a charming bed. Alpina, very dwarf, small rose flowers, pretty; Chalcedonica, one foot, shows clusters of bloom, white, dazzling scarlet, mixed; Haagesiana hybrid, crimson, mixed; Fulgens, rich scarlet. The sorts separate or in Complete mixture.

**Malcolmia.** littorea, a hardy annual a foot high bearing large, delicate rose lilac flowers.

**Malope grandiflora,** the large-flowered Mallow: plants a foot high, branching; flowers like a small Hollyhock, Red, White, Rose, Mixed.

**Malva,** showy and easily grown garden flowers. Malva Crispus grows from six to eight feet high, a single stalk, thickly set with crisp flat foliage; lasts till winter. Malva Mauritiana grows six feet tall, bearing dark rose or purple flowers. Malva Moschata is a perennial blooming the first season; plants 18 inches high, covered with clusters of showy, fragrant white and pink flowers. Sep. or mxd.

**Manuelia violacea,** a plant from the Cape of Good Hope; a foot high; bears racemes of violet flowers.

**Martynia,** vigorous, viscid plants two feet high, branching and sprawling; flowers Gloxinia-shaped, in racemes, showy and handsome, succeeded by curious curved seed-pods; grow and bloom all summer. Fragrant, purplish, with yellow throat, fragrant; Lutea, yellow; Pro-boscidea, lavender, spotted; separate or mixed.

**Matricaria,** Feverfew, very profuse, constant-blooming perennial; flowers double, pure white and golden yellow, very showy and beautiful. Parthenium Capensis, tall double, also dwarf double, both white; Eximia double white; Eximia Pyramidalis; Eximia Dwarf Golden Ball, and Snowball. All sorts separate or mixed.

**Matthiola Bicornis,** Evening Stock, a foot high; purple, white, sweet-scented flowers in the evening.

**Nectrospus Cambria fl. pl.** the Double Welsh Poppy; a foot high; large, yellow flowers; hardy biennial, blooming first season.
Mimulus, Finest Varieties.

These are lovely, free-blooming plants, the flowers of some being as fine as Orchids. They are especially adapted for pots, baskets, and beds in shady, protected places. They are easily grown from seeds.

Large-flowered Hybrids: Tigered and Spotted; Queen's Prize; Fire King; Narnus Roseus, dwarf; Imperialis; Grandiflorus Duplex; Albus Duplex. Separate or in complete mixture.

Varieties: Spotted. Cardinalis grandiflorus, Orange and Rose, also mixed: Cupreus, copper; Bismarck, Carmine; Moschatus, Musc plant; Moschatus Compactus, Dwarf; Quinquenervus Maximus, and Q. Duplex. Species mixed. Species and Hybrids mixed.

Mr. Park.—Each year brings to the flower lover some surprise. How many have raised Mimulus Tigrinus, the Queen's Prize? From a Park's packet last year I had many plants. They bloomed very freely, and what was my surprise but to find them alive when spring opened. They were covered loosely with buckwheat straw, once it was 20° below zero. The plant looks so fragile and tender, that it seems a mystery that it could withstand the cold. I shall try more varieties of it another season.—Mrs. G. W. Baill, Nassau, N. Y., May 22, 1916.

Myosotis, Forget-me-not.

The Forget-me-not is one of the chaste, pretty little flowers that everybody admires and loves. The plants are dense, low, very free-blooming and the exquisite, delicate flowers, bright and pleasing, are produced upon scorpion racemes, opening for many weeks. A bed in bloom is beautiful, and when grown in pots the blooming plants are charming. Sow in early autumn for spring flowers, and in spring for autumn flowers. Everyone who has a garden should grow the Forget-me-not. It deserves to be generally cultivated.

Alpestris grandiflora, White, Rose, Indigo Blue, mixed.
Elegans, White, Rose, Blue, mixed.
Grandiflora, Royal Blue, Splendul.
Victoria, compacta alba, fine white.
Victoria, White, Rose, Blue and mixed.
Stricta grandiflora, mixed, Oblongata perfection, Blue and mixed.
Dissilflora, Blue White, and mixed.
Pallustris Semperflorens, Blue, White and mixed.
Complete mixture of all varieties.

Mr. Park.—Few spring flowers are more admired than your lovely Forget-me-nots, which are especially effective when grown in masses in borders and beds with bulbs or Pansies. They are perennial, and hardy with slight protection. Mr. Tredwell, Plymouth, Wis., Nov. 28, 1916.

Myosotis Nobile, the New Zealand Giant Forget-me-not; 18 inches high, flowers deep blue, edged white.

Nemophila, very pretty, hardy annuals. Sown in autumn the little plants bloom early in spring, making a fine display as an edging or carpet plant. Brown with white margin, Insignis white, Sky Blue, Maculata spotted, Marginata margined, Holborn Blue Bell, Sept. to mixed.

Nicandra physaloides, the Shoo-fly Plant; 5 feet high; large blue and white bell-shaped flowers.
Nicotiana in Splendid Variety.

I wish to call special attention to the splendid varieties of Nicotiana I offer. The plants come into bloom quickly from seeds, stand out, and become a mass of showy flowers, pleasing all by their exquisite beauty and their delicious fragrance. They like sun and rich soil, and have no enemies. They are hardly surpassed as bedding plants, and bloom well in pots in winter.

**Afrianus**, night-blooming, very fragrant; **Hybridus grandiflorus** large-flowered, fragrant, all colors, mixed.

**Acutifolia**, day-blooming Star-flowers: not fragrant.

**Macrophylla**, gigantic, large-leaved, red bloom.

**Atropurpurea**, large-flowered, purple.

**Colossea**, giant leaves: fine for a group.

**Sylvestris**, pure white, sweet-scented.

**Sandeaea**, day-blooming, two feet high, splendid for beds; very free-blooming, the flowers in many fine colors, some exquisitely variegated. Varieties: Rose, Blood Red, White, Flesh, Purple, Mixed. Plants are large, variegated in complete mixture. This sort is everblooming, and highly recommended for summer beds and winter pots in sunny exposure.

**Nasturtium, Tom Thumb.**
This is a splendid annual for beds, borders and window boxes. The foliage is dense, clean and handsome, and the flowers large, delicate, rich-colored and fragrant, showy in beds and useful for cutting. Plants are easily grown, a foot high, bloom freely and continuously, and the large showy flowers are on long stems, held well above the foliage. I have the following splendid sorts to offer separately or in special mixture: Pearl White, Scarlet, Scarlet with golden foliage, Salmon Red, Scarlet striped, Yellow and scarlet, Chameleon variegated, Deep Crimson, Term-cotta, Rose, and Dark-leaved. I also offer special sorts: Lady Bird, Dark Scarlet, Cattel's Brown-red, Golden King. Mixed, or to color, in quantity, 12 cents per ounce, ¼ pound 40 cents, 1 pound $1.50.

**Nierembergia**, dense, slender-stemmed plants that become a cloud of lovely cupped flowers of pale blue, reined purple. Sow early for summer blooming. If lifted and potted in autumn the plants are a mass of flowers in the window in spring. Gracilis and Fritescens, separate or mixed.

**Nigella**, Love in a Mist, or Devil in a Bush. One name is as appropriate as another, but the plants are really charming annuals, beautiful in flower and foliage, re-seeding and taking care of themselves after the sun. **Nigella damascena**, black, double, blue and white, also Miss Jekyll, deep blue, separate or mixed; **Diversifolia**, blue; **Nig. nana**, dwarf, double, white, blue, mixed; **Hispanica**, Blue, White, Purple, mixed. Mixture of all varieties.

**Nycterinia** selaginoides, a low, graceful annual bearing clusters of pretty, lilac, fragrant flowers.

**Nemescia, Superb Sorts.**
Among the beautiful little annuals that deserve to be better known are the newer Nemescias. They are charming, rival Phloxes in appearance and usefulness, and are a real acquisition to our summer borders. Plants grow a foot high, start readily from seeds, and bloom freely and constantly all season. Be sure to give them a trial. **Compacta White Gem**, also **Blue Gem**, Lustra, and New Triumph; **Tigrata**, white, rose and Lilac; **Versicolor**, variegated; **Strumosa Scarlet**, Orange, Carmine, Spotted and mixed; **Strumosa Dwarf Compact**, pure white, and **Grandiflora**, mixed; **Strumosa Tinted mixed**. Special mixture of all varieties.

**Nolana**, charming prostrate annuals, suitable for baskets, bracket pots and edgings; flowers like a small Morning Glory. **Grandiflora** Blue, Lanceolata lance-leafed, violet also blue, white, violet mixed.

**Obeliscaria pulcherrima**, a lovely, showy annual with column-like centre, and drooping rays, brown with gold margin; much like Rudbeckia.

**Onthospermum**, Evening Primrose, Attractive Garden flowers of great beauty. **Acenulis**, very dwarf, white, Lamineckiana, 3 feet high flowers yellow, different flowers; **Rosea Mexicana**, dwarf, rose. The following are perennial: **Nectia**, fragrant, fine; **Fraseri**, golden, floriferous; **Youngii**, yellow, large. Special mixture.

**Oxalis**, low plants with clover-like leaves and pretty flowers in clusters. **Rosea, Rose alba**; **Troposodium**, brown foliage, very dwarf; **Valdiviana**, yellow, fragrant, fine. Special mixture of all sorts.

**Perilla**, Pretty foliage plants not unlike dark-leaved Coleus; hardly annuals a foot high, fine for beds or borders. **Macrophylla Nigricans**, large-leaved, very dark brown; **Macrophylla Crispa**, dwarf, large-leaved, curled; **Atropurpurea Lacinifolius**, dark, cut-leaved; **Microphylla Compacts**, dwarf, small-leaved. All sorts mixed.
The Pansy is one of the most popular of flowers. Started from seeds in the spring the plants bloom during summer and autumn; started late in summer they make a varied and glorious bed in early spring, rivalling the early bulbous flowers. The seeds I offer are of the finest Trimaritium or large-flowered strain, and will give the best results. I supply them separately or in complete special mixture. There are no better Pansies than those I offer, no matter what may be the price. You cannot err in buying of me. These Pansies are grown by a first-class French Specialist.
Park's Unrivalled Petunias.

The Best of Bedding Plants. Grown in Pots are Unexcelled for Winter-blooming. Finest Single and Double Varieties.

There is hardly a better bedding plant than the Improved Single Petunia. The plants begin blooming early in summer and bloom freely until after frost, enduring spells of wet weather, cold and drought. Set 15 inches apart they soon become a mass of rich, showy bloom, delightful to the eye, and emitting a pleasing odor. The Giant-flowered sorts do not bloom so freely, but are fine for single specimens grown upon a trellis, or for choice pot plants. The same is true of the Double-flowered sorts. The Dwarf Compact Varieties are the best for beds, and for winter-blooming in pots. As an all-around flower the Petunia is unrivalled. Everybody should grow it.

**Giant Ruffled Sorts**: Brilliant Rose, Intus Aurea, Marmorata Rosea, Giganthea, Tintana, White, Veined, Violet, Veined and mixed, Superbissima Soliel d'or, Superbissima mixed. Complete mixture of all Giant sorts.

**Compact Varieties**, the best for beds and pots: Multiflora, dwarf, striped and blooming, splendid, semi-double, pure white, very fine; Rosae; Brilliant, fiery rose; Ercordia, rose, white center, new and fine; Adonis, red, white throat; Purpurea, very desirable and free.

Phlox Drummondii.

Phlox Drummondii is one of the most desirable of annuals. Plants grow in 6 to 8 feet high, branch freely, and bloom continuously from early summer. The fragrant flowers are of many shapes, colors and variegations, and if the plants are set eight inches apart in a bed they make a glorious display all the season. If you have but a half dozen annuals one of them should be Phlox Drummondii.

**Large-flowered**: White, White with purple eyes, Scarlet, Bright Rose, Chamois, Light Yellow, Pink with white eye. Rose with white eye, Stella splendens, Violet, Scarlet, Meteor, Cream, Brilliant scarlet, Rose with yellow center, Chinabar scarlet, Purple, Crimson with white center, Blood red with white center, Three-colored, Vermillion Red, separate or mixed. These varieties are all unsurpassed for beds.

**Hortensiflora**, very fine, free-blooming varieties in complete mixture.

**Nana Compacta**, new dwarf, compact-growing sorts, excellent for beds and pots; Apricot, White with eye, White with star, Dark Scarlet, Marbled, Rose with purple center, Ivory Chamois, Fiery Red, Crimson striped, Violet with white center, Crimson with white, Yellow, Red, Rose, Purple, Salmon Pink with white center, separate or mixed. Complete mixture of all varieties, tall and dwarf, single and double, carefully prepared.

**Improved Phlox Drummondii**.

Mr. Park: The Annual Phloxes from your seeds are lovely, and stand a drought so well! I had all colors, some yellow, a new color to me. Mrs. W. L. Taylor, Dennark, Neb.

Mr. Park: I am delighted with Phlox Drummondii. The plants start readily from seeds, and show a great variety of colors. Anna W. Pratt, Watonwan Co., Minn., Nov. 7, 1916.
**Portulaca, Single and Double.**

Excellent for Beds. Plants always in Bloom. Flowers Showy and Freely Produced.

Portulaca is a hardy annual of rare beauty. The plants are succulent, low, branching, spreading, with green or rosy stems and foliage, and bearing in great abundance throughout the season large, bright flowers, single and double in form, and of the richest colors, shades of red, white and gold, some eyed, some distinctly variegated. My seeds of both single and double are of the best quality, and my mixtures are unsurpassed. Portulaca fals the few large-flowered varieties. All Portulaca like a sandy soil and a sunny situation. They are among our best annuals.

Mr. Park: Portulaca never fails in the hottest, dryest seasons. I sowed seeds last spring and was more than surprised when the plants bloomed to find not only red, the common color, but pink, orange, yellow and blush, many mottled and variegated, and different shades on the same plant. I was greatly pleased, and will gladly recommend them.

---

**Poppies in Splendid Varieties.**

The annual Poppies are very showy and beautiful garden flowers, and also excellent for cutting for room decoration. The seeds should be sown in September or very early in spring, and the plants thinned till they stand eight inches apart. If crowded they will not do well. I offer a fine lot of the choicest Poppies in cultivation, and heartily recommend them to my friends.

**Carnation-flowered fl. pl., Tall:** a splendid large Poppies, 2 feet tall, bearing huge double fluffy flowers in these colors: White, Light purple, Light Yellow, Red and White striped, Pomegranate red, Purple, Rose, Scarlet, Ash, Dark Lilac, Dark Violet, Purple and brown, Rose and white. Separate or mixed.

**Carnation-flowered, fl. pl., Dwarf:** Carmine rose, White, White-edged Scarlet, Lilac, Bright Rose and white, Rose, Rose and crimson, White striped red, White and purple, Black, Steel Blue, Incarnate, Glaucum. Mxd.

**Peony-flowered fl. pl., Tall:** Double: Superb, large-flowered varieties, White, Cream, Lilac blotched, Light lilac, Lilac rose, Brilliant rose, Scarlet, Pink, Bright rose, Coccineal white-blotched, Coccineal purple-blotched Cherry, Vermilion. Cardinal, Striped, Carmine, Currant, Deep Purple, Fausy Violet, Lilac and scarlet, Brick-red, Light mordore, Maw Gray, separate or mixed.

**Peony-flowered, Fringed, Double:** White with lilac shine. Cream yellow, Maize rose, Cherry red, Vermillion red, Currant red, Heliotrope, Plum Violet, Mixed.

**Peony-flowered Dwarf, Double:** Black, Lilac, Rose, Salmon rose, Scarlet and white, White and light purple, separate or mixed.

**Chinese Double Dwarf:** White, Slate, Bright rose, Bright lilac, separate or mixed.

**Cardinal Hybrid Double Bright scarlet: Umbrous Single, Umbrous Double, bright crimson: Admiral:** Single white, with scarlet margin; Double white, with white blotch; Mephistro, scarlet with white blotch; Mephistro to rose; Glaucom, the Tulip-flowered Poppies; Marseill fl. pl., mixed; Miss Sherwood; King Edward, Dainty Lady, Hooker.

**Ammi-flowered, Double, White, Slate, Scarlet:** Scarlet with white edge, Rose, Dark red, Red with white edge, separate or mixed. These Poppies grow a foot high, are profusely blooming, and very beautiful.

**Rheas or Improved Shirley, Dwarf:** single with light-colored stamens, very attractive. Colors: White, Carmine, Re, Salmon shades, separate or mixed. Also Tall Shirley Poppies, a splendid mixture.

Complete Mixture of all the above splendid Poppies, single and double, all the fine shades and colors.

Mr. Park: This year we had two large beds of your Poppies, single and double, and I thought they were beautiful. The improved varieties surpass the older ones, and should be popular. Norman W. Dosh. York Co., Pa.

**Physalis, Ground Cherry.** Very attractive inflated capsules with edible fruit: Franchetti, Chinese Lantern Plant, red capsules; Edulis, golden capsules, sweet fruits. Both sorts mixed.

**Polygonum, hardy annuals of tree-like form, branching and bearing graceful drooping flowers spikes all summer. Tall Red, Tall White, Variegated, separate or mixed.**

**Ranunculus Asiaticus superbissimus, a double-flowered perennial blooming with the first flowers large and showy and of many rich colors, little, mossy, sandy soil and partial shade. Easily grown from seeds.** Start them early and transplant.
Salpiglossis, New Gloxinoides.
Richest-flowered of Annuals. Easily grown, and Blooms Freely and Continuously all the Season. A "Must Have".

The new strain of Salpiglossis I offer produces Gloxinia-like flowers of surpassing beauty. The plants are strong and compact in growth, and bear very large, lovely rich-colored showy flowers in great abundance. The plants grow from two to three feet high, and become a waving mass of charming bloom, the exquisite penciling of the velvety flowers beautiful beyond description. The plants are easily grown from seeds, and bloom continuously throughout summer and autumn. I offer these splendid varieties separately or mixed, as follows:

Brilliant Crimson, Light Blue, Chamois, Rose, Brown and gold, Blue and gold, Black, Yellow with white border, Magenta with yellow throat, Rose-chamois with carmine center, Carmine red striped yellow, Purple red striped yellow Violet. The varieties separate or carefully mixed. Also Dwarf varieties, large-flowered, in the mixture.

Salpiglossis.—One of the finest of half-hardy annuals. It bears funnel-shaped blossoms with dark veins on a ground varying from white to crimson, yellow, orange or purple and intermediate shades. A mixed packet of seeds will yield a fine display lasting from summer till late autumn.—English Flower Garden, London, England.

Salvia.

Salvia splendens is the large-flowered Scarlet Sage, so popular as a bedding plant. The Improved varieties are much superior to the older kinds, and are among the brightest and most beautiful of flowers for beds or borders. I offer the following:

Splendens: Grandiflora, Bonfire, Fireball, Violet, separate or mixed. Other Sorts: Carduacea, lavender-blue, Parnacea blue, Patens rich blue. Horiz. Red-top, also Purple-top and mixed; Coccinea compacta; separate or mixed.

Complete special mixture of all Salvias.

Ricinus. Castor-oil Bean, elegant semi-tropical plants, the leaves of large size and graceful form; grow from 3 to 15 feet high in one season. In the south the plants are perennial, and assume the proportions of a tree. Arborose, 15 feet; Gibbon, 3 feet, dark foliage; Cam- bodgeanis, dark; Santaquinus, 8 feet, red stalk; Zanzibarica, gray, Purple, Red, Green, Separate or all sorts mx'd.

Ricotta Lunaria, a very pretty little Alpine annual, fine for edgings and rockeries: flowers, blue; occasionally produced.

Rudbeckias. showy, autumn-blooming plants with a profusion of golden flowers. Bicolor Sunflora Semi-plena; Amplecticaulis, Newmanii, Sullivanti. Bicolor or Superba has gold and brown flowers, sometimes semidouble; the others are golden.

Salvia. The Improved annual varieties of Double Scabiosa are among the most desirable of garden flowers. The plants become bushy and dense, reach the height of three feet and bear large, very double, exquisitely colored flowers on long, strong stems. Seeds may be sown in spring or early autumn, and in either case the results are very satisfactory. The Dwarf varieties are fine for pots as well as bed, growing a foot high, and blooming freely. They are excellent as window plants, for summer or winter blooming.

Improved Tall: White, Rose, White and blue, Salmon, Pompadour, Fiesch, Rose, Carmine, Brown red, Purple, Purple and white, Blue, Cherry and white, Lilac, Black-purple, Violet-red, Violet, Separate or mixed.

Improved Dwarf: White, Sky blue, Carmine, Fiesch, Cherry, Flory crimson, Lilac, Purple, Rose, Blue, Mixed.

Sanvitalia procumbens, fl.pl., low, spreading annual with double golden flowers an inch across; likes sun, will do well in sandy soil, blooms continuously.

Schizopetalon Walkeri, a pretty annual from Chili, a foot high; flowers fringed, and fragrant.

Seneio. Double, Dwarf, very showy, beautiful annuals growing a foot high, and blooming freely; excellent for beds or borders. My seeds are saved only from the elegant double sorts, and will give the best results. White, Lilac, Copper-color, Violet, Separate or mx'd.
Schizanthus.

A lovely annual often called Butterfly flower because of its prettily marked fly-like flowers borne on little stems. The plants grow a foot or more high, blooming profusely all the season, whether grown in beds or pots. Three or four plants set in a five-inch pot in fall will bloom during winter. The Hybrids of Grandiflorus with big flowers of various colors, are recommended for out-door.

The new S. Wisetonensis is considered the finest for pots: but all are beautiful and of easy culture: Graham, large-flowered, White, Carmine, Rose; Papillonaceus, mixed; Pinnatus hybridus nanus, dwarf, mixed; Grandiflorus, mixed; Pinnatus Rose, Blue, Spotted, also mixed; Reticus Carmine and Yellow, White, Rose, mixed; Tri- maculata, Carmine with yellow spots, also albus; Hybridus Grandiflorus mixed; Wisetonensis. Separate or mix. Complete Splendid Mix of all varieties.

Saponaria Calabrica, trailing plants that branch and become a sheet of lovely flowers; White, Rose, Scarlet, also mixed. Also Vaccaria or Paniculata Rosea.

Shortia Californica, a dense little annual six inches high; flowers daisy-like, yellow with rich orange center, very pretty.

Silene, very showy, easily grown hardy plants useful for beds and edgings; flowers bright, in clusters, very handsome. Asterias grandiflora, perennial, crimson, very attractive; Armeria, a fine annual a foot high, known as Catchfly, Red and White mixed; Dichotoma, white plant; Fortune, large, finely fringed flowers, shades of Rose mixed; Maritima, a green carpet spangled with pink flowers; Penstemon, dwarf, compact, splendidly profuse-blooming annuals for beds, borders or edgings, sow in fall or spring, flowers very double, Yellow, Flesh, Carmine, Light-Violet, Separate or mixed.

Sphenogyne speciosa, a pretty annual a foot high, with Daisy-like flowers shaded yellow and white. Atrea, Sinphurea, Anthemidus, separate or mixed.

Stock, Ten Weeks.

Here is an annual flower allied to the well-known Wall Flower that has all the elements of a first-class plant, and can be grown in garden beds or window pots. It has no enemies, will grow in any rich soil, bears its flowers in long spikes, and blooms freely until after frost. The flowers are like little Roses, exquisite in texture, deliciously scented, and very showy and beautiful. Start the plants in a hot-bed or window box early, and transplant to a sunny bed as soon as danger from frost is past; shade and water for a few days, so that the plants will not become stunted. If possible, transplant during damp, cloudy weather. My seeds are of the best quality, having been saved from selected plants grown in pots. My mixtures are unsurpassed.

Mammouth Hollyhock-Flowered: One of the finest Ten Weeks Stocks for the garden. The plants grow three feet high and bloom in long Hollyhock-like wraiths. The seeds supply 100 per cent. White, Light Blue, Crimson, Brillant Rose, Brilliant Lilac, Light Blue, Separate or mixed.

Early-flowering Dwarf, of dwarf habit, each plant becoming a little tree of bright fragrant "Roses": White, Chamois, Brick Red, Dark Violet, Chestnut Brown, Apple Blossom, Carmine, Blood Red, Brown Violet, Black Rose, Dark Crimson, Dark Carmine, Ash Gray, Red Brown, Sulphur Yellow. Sep. or mixed.

Large-flowering French, a fine strain produced in France; flowers large, very showy. Red, Yellow, White, Green, Salmon Rose, Reddish Brown, Violet, Summer Excessor White, Princess Alice White, Separate or mixed.

Giant of Nice, new and very fine, early-flowering. White shaded Carmine, Flesh Pink, Rosy Lilac, Carmine Rose, Canary Yellow, Mont Blanc White. Mixed.

Other Sorts: Wall-flower Leaved, mixed; Dwarf Bonnet, mixed; Victoria Bouquet, mixed; Triumph, brilliant crimson; Pyramidal, light blue; Dresden Perpetual, crimson; Paeonies, White, Separate or mixed.

Solanum. The Solanums I offer are mostly annuals, and bloom and perfect their fruit the first season; some are valuable for foliage, some for flowers, and others for their pretty colored fruits. Cilantro, red fruits, 2 feet; Granadella, sub-tropical foliage, small flowers, 6 feet; Margaritum, white-edged foliage, purple flowers, 4 feet; Rangazigerus, red fruit in currant-like clusters; Robustum, large-leaved, 4 feet; Melonengia, striped fruits; Negasakti, dwarf, black fruits, edible, used as Egg-plant; Warwickei, a grand plant, 6 feet high, the stalks covered with strong spines, and the leaf-stem and mid-ribs with red spines, good for a group. All varieties mixed.

Trachydeum, a much-branched plant 2 feet high; a beautiful summer corn with a profusion of small white or blue flowers in profusion, Mixed colors.

Trachymene, Didiscus coeruleus, hardy annual, foot high, lovely small blue flowers in flat umbels, often used as an atropurpureus, the little clover mostly grown as Irish Shamrock; a hardy perennial; flowers white in heads.

Valerian, The Garden Valerian is sometimes called Garden Heliotrope, on account of the heliotrope fragrance of its flowers. The plants and flowers are not unlike Centranthus Macrosiphon, are two feet high, with pretty small flowers in large clusters, produced almost continuously; Red, White, Scarlet, separate or mixed.

Venidium fugas is a prostrate annual bearing golden flowers much like those of African Daisy; it blooms freely, and makes a fine bed or border.

Vinca Rosea, a beautiful evergreen plant used in the south as a bedding plant, and in the north for fall bloom with a profusion of white or blue flowers as well as buds. The plants grow ten or twelve inches high, have handsome glossy leaves, in a handsome, and the flowers are abundantly produced, appearing in great clusters in a setting of deep rich green. The plants bloom continuously, and in Florida make a splendid display contrasting with the rest of winter. White with eye, Rose, and Light-Blue, separate or mixed. They are easily raised; set eight inches apart in the bed. In pots they are fine for blooming plants.

Viscaria, an annual of the Pink family that makes a good display massed in a bed; a foot high; flowers large, bright and showy. White, White with eye, Scarlet and Rose. Blue, Rose, Cardinal, separate or mixed.
**VERBENA SUPERFINE.**

**Fragrant, Free-blooming, Fine for Beds and Window Boxes.**

Among the garden flowers in summer and window plants in winter the choice Verbenas offer are hardly surpassed. Seedlings begin to bloom early, and are a carpet of rich clusters until after severe frosts. They like rich soil and a sunny situation, and are very showy and beautiful the entire season. The compact varieties are preferable for pots, and they should have a sunny window to bloom freely in winter.

**Large-Flowered,** fragrant, excellent for beds: White, Scarlet, Blue, Striped, Eyed, Brilliant Scarlet, Dark Blue with white center, Magenta Red with white center, mixed.

**Mammoth-Flowered,** White, Dark Scarlet, Rose and carmine, Purple, Fiery red, Dark Purple, Rose, mixed.

**Compact Varieties,** fine for either pots or beds: Pure White, Scarlet with white center, Light Yellow, Violet with white center, Blood Red with white center, Dark Blue, Striped, Coppery Scarlet, separate or mixed.

**Complete Special Mixture** of all the above varieties.

---

**Verbena Venosa,** a hardy perennial with pretty clusters of red and white flowers in profusion the greater part of season; showy in the garden, fine for pots. The flowers are fragrant and fine for cutting; would be popular if better known.

**Viola, Tufted Pansy.** These are beautiful Pansy-like plants much used for beds in Ireland and Scotland. They endure the sun better than Pansies. They bloom freely and continuously, and are lovely garden flowers, fragrant, rich-colored and attractive. Deep Blue, Light Blue, Perfection White, Rose Queen, Papilio spotted, New Bicolor, separate or mixed.

**Vittadenia triloba,** a hardy perennial blooming abundantly in a sunny bed; the plants are slender, stocky, and become a mass of Daisy-like flowers.

---

**Virginia Stock,** pretty, profuse-blooming annuals a foot high, bearing a profusion of small, bright flowers during summer and autumn; started in autumn the plants are fine for window pots in winter; should be grown in masses. Red, White, Crimson King, Rose, Compacta alba, and Compacta rosea. Separate or mixed. The Compact sorts are the best for pots.

**Wallflower,** Extra Early Parisian. Easily grown and blooms freely and continuously the first season; flowers in spikes, deliciously fragrant; elegant in beds, and in pots bloom well in the window in winter. Golden yellow, Yellow with green buds, Brown, Purple, separate or in splendid mixture.

**Whitlavia,** very beautiful little annuals; plants branch and bloom freely, becoming little globes a foot high, covered with lovely blue and white bells; bloom for a long time, and in a bed make a fine display.

---

**Zinnias, Improved Double.**

One of the most beautiful and satisfactory of annuals. Even a child can grow it. The bushy plants bloom when small, increasing in beauty till frost. The plants revel in hot sun and do not mind drought; make a glorious bed. My seeds are unsurpassed in quality.

**Bedding Zinnias,** very double, 18 in. high, bushy: White, Sulphur, Golden Yellow, Salmon, Scarlet, Purple, Carmine, Violet, Striped; separate or mixed.

**Robust Sorts,** huge double flowers; 3 ft high: White, Striped, Flesh, Carmine, Crimson, Golden Yellow, Rose, Purple; separate or mixed.

**Lilliput,** small-flowered, double; Yellow, Lilac, mixed.

**Pigmea or Tom Thumb,** very small, double flowers; plants a ft high: White, Scarlet, Crimson; sep. or mixd.

**Other Sorts,** Crisp, Crimson, mixed; Queen Victoria, White: Iris, Striped, Spotted, Sulphur: Giant Striped.

Complete Splendid Mixture of all varieties.

Mr. Park:—Verbenas are among my choice flowers, as they make such lovely beds, showing all colors, and blooming from early spring till hard freezes. They are easy to cultivate, and a bed of them is beautiful. Mrs. M. J. Richardson, Arvin, Cal., Nov. 17, 1899.
Acroclinium, lovely annuals; nodding flowers on slender stems a foot high; good for beds; cut when in the bud. Double Rose and Double White, separate or mixed.

Ammobium alatum, new large-flowered, double, white; branching, two feet high, robust; cut when in bud. Gomphrena Globosa, German Clover, one of the best annuals for a showy bed or winter bouquet; flowers globe-like, rich colored. Cut when fully developed. White, Flesh, Rose, Variegated, Purple, sep. or mixed. Nana Compacta violacea, dwarf, fine. Gypsophila elegans, a very beautiful, delicate everlasting, useful in bouquets, either green or dry; pretty in a bed; easily grown. White, Carmine, Rose, Rosea grandiflora. Muralis, pinkish rose, fine for edging and hanging baskets.

See Perennial for Gypsophila paniculata, so useful in green bouquets; and G. repens, dwarf.

Helichrysum Monstrosum, a fine annual in beds, 2 ft high, one of the best for winter bouquets; flowers large, double, bright and handsome, cut when in bud. White, Yellow, Brown, Purple, Rose, Copper-red, Salmon-red, separate or mixed. Double Dwarf, fine in beds, also for drying; Fiery Red, White, Yellow, Red, Blood-red, separate or mixed. Bracteatum, single, white, also mixed.

Helipterum Sanforii, a lovely golden everlasting, flowers small, bright, in heads; pretty in beds; fine to mingle with dried grasses.

Rhodanthe, a pretty annual 1 ft. high, graceful, bearing lovely drooping bells; excellent for bouquets either green or dry. Mangles; White and Rose, single and double. Muralis, Rose, separate or mixed.

Statice, everlasting of great beauty either in beds or when cut; one to three feet high. Sinuata, annual, Blue, White, Rose, mixed. Incana hybrida, perennial, mixed. Limonium, Lilac, Tartarica, White, perennial. Special mixture of all sorts. Xeranthemum, hardy annuals a foot high, bearing showy double flowers on long, strong stems; showy in the garden and fine for cutting; cut when fully developed. Superbissimum, very large and double; White, Rose, Red, mixed. Multiflora: White, Purple, mixed. All sorts in mixture.

**EVERLASTINGS.**

**GRASSES.**

These are fine for bouquets, green or dry. Some are useful in groups, beds, edgings, etc.

Aegrotis nebuloa, elegant, airy, nebulous panicles, fairy-like, fine. Pulchella, more dwarf and rigid.

Avena, animated Oat, pretty, curious. Anthoxanthum, sweet vernal grass. Odoratum, true, perennial, sweet.

Brida Maxima, large, nodding, Quaking Grass, fine for bouquets. Minima, very pretty, for bouquets. Gracile, a very fine Quaking Grass. Complete mixture of Quaking Grass. Bromus pendulinus, an elegant grass; weeping panicles; fine. Macrostachys, a good sort. Chrysus Cynosorus, very pretty. Erigeron elegans, an elegant grass. Echium luxurians, 8 ft.; for groups. Gymnathrix latifolia.

Hordeum jubatum, heads long, hoary awns; for beds and to dry. Job's Tears, Coix Lachryma, seeds used as heads; a pretty grass. Zebrina, variegated-leaved.

Lagarus ovatus, Hare's Tail: soft, silvery heads; very handsome. Panicum capillare violaceum, violet, hair-stalked, beautiful. Frumentaceum, tall, fine. Virgatum, 5 ft.; purple spikes. Plicatum, good basket plant. Ctenium, very ornamental. All sorts mixed.

Pennisetum Euprepellianum, elegant crimson-purple plumes; beautiful. Villosum, very handsome. Stipa pennata, Feather Grass, 2 ft.; long, twisted feather spikes. Zena Girantae Quadricolor perfecta, an improved Rainbow grass, or corn; colors, pink, yellow, green, white. Gracillima, graceful, variegated. Zizania aquatica, wild Rice, tall; fine water grass.

Park's Grandiflora and Spencer Sweet Peas.

Embraces the finest large-flowered varieties in cultivation. Special mixture, carefully proportioned, all colors and variegations—none better. Price, 1 lb. 95 cents, 1/2 lb. 25 cents, 1 oz., 10 cents. pkg. 5 cents. See page 26.
Fine Ornamental Climbers.

In beautifying the home no class of flowers is more useful than the climbers. They ornament the porch pillars, make beautiful unsightly fences or buildings, and give a coziness to the place that nothing else can impart. By all means add a few climbers to your seed list.

Bean, Scarlet Runner, a handsome blooming vine growing to the height of different feet. and blooming all summer; flowers richly decorated, in clusters, very showy. Do not let seeds form, if you wish a continuous display of flowers. The seeds are edible and by some are prized as a vegetable. A white-flowered Runner, and the Painted Lady, which has a pink and white flowers. Blooms more freely in a rather dry, sunny place. Furnish support as soon as the plants show a disposition to climb.

Cajophora latifolia (Loosa), a vine with hanging hairs, growing six feet high; flowers rich brick-red, on stem twice, in abundance in autumn. Also Wallist, white and red, or both mixed.

Calampelis Scabrata, a lovely, turgid vine, bearing an abundance of carmine or golden yellow flowers. The tubers keep over like Dahlias. Separate or mixed.

Canary Creeper, Tropaeolum peregrimum, a very pretty, clean vine, growing ten feet high; foliage delicate and graceful, flowers canary yellow, bird-like in form, very freely produced, and, easily grown.

Cardinal Climber, said to be a hybrid by Mr. Ferguson. It is of rapid growth, has cardinal colored flowers like Cypress Vine, but the leaves are curiously cut. It is handsome, and deserves a place among climbers.

Cardiospermum, Balloon Vine, a very graceful climber, reaching six to eight feet, with elegant foliage and curious, pretty, inflated seed-vessels; easily grown, a handsome trellis vine. Halicacaumbus, Balloon Vine. Hirsutum, a rare sort; and both mixed.

Centrosema, a pretty leguminous vine, climbing or trailing; flowers pea-like, large, freely borne. Attractive native vine of the south, well worth cultivation.

Cocnea Scandens, an easily grown, vigorous vine, growing thirty feet high, bearing continuously beautiful, large, bell-shaped flowers; the foliage is slightly tinted bronze, graceful in form, and grows from the tendrils at the tip. A charming vine for the pillars of a porch, for a screen, or for a trellis. Purple, or Violet Blue, the finest; also white.

Mr. Park. My Cocnea Scandens from your seeds climed all about the porch and above the door in the back yard. Mrs. Ethridge, La.

Mr. Park. Our Cocnea frames your seeds climed all about the porch and above the door in the back yard of Mrs. Ethridge, La.

Cypress Vine, a very pretty vine for a trellis or for screening a porch or wall. The foliage is deep green, fine cut, and very beautiful; the flowers are rich Carmine, white, and Rose, and remain open all day; they are like bright gems against a setting of green. The colors separate or mixed. I also supply Hederaceus, the ever-leaved, and Retorta, the later flowering sort, also the Cardinal Climber, previously described.

Mr. Park. Could anything be more beautiful than the Cypress Vine, with its glossy foliage and star-like flowers, in abundance? Everybody should have it. Mrs. Ferguson, Tenn.

Convolvulus Major, Morning Glory, the old sort, improved large-flowered; still one of the loveliest of vines, very rapid grower, blooms profusely, and the large, richly textured flowers are of many beautiful colors. For covering a wall, old fences, unsightly buildings, or the like there is no annual vine more desirable. The flowers are in clusters, on long stems, showy and beautiful. I have all the colors desirable. White, Tricolor, Lilac, Carnation, Dark Red, Rose, Dark Blue, Pale Blue, Incarnate, White striped, Violet, White striped rose. Crimson, Spotted, and mixed. I can also supply Double varieties in special lots. Be sure to give them a trial, as they will please you.

Cucumber (Ornamental). These are grown for ornamental purposes upon a trellis or to screen a wall; grow six to eight feet, and are curiously hand-shaped. Cucumis Flexuosus, the Snake Cucumber; Cucumis Duin, orange, fragrant fruits; Cucumis Japan, Climbing, edible: Lycopersicum, the so-called Wild Cucumber, pinnacles of white, fragrant flowers followed by inflated seed-vessels; Momordica elasterae, the so-called Squirming Cucumber. Separate or mixed.

Dolichos Lablab, Hyacinth Bean. This is a bean-like vine, blooming very profusely, the flowers of various colors, followed by large broad seed-pods of a rich violet color, from which the common name is derived. I have Purpureus, purple; Gigantes, lilac; Soudanensis, rose violet; Princess Helene, pure white; Atrosanguineus, dark red, variously colored; and mixed.

Gourds. These are very useful, not only as ornamental vines, but many of the fruits are useful for various purposes. They are easily grown, and afford much pleasure and interest as any other vines. I advise everyone of my friends to secure at least a mixed packet, which is specially put up, and includes many sorts. The small, fancy gourds are fine for children's toys. Bryonopsis, small, variegated Cucumis, Melanocarpa, Argus-herlin, Cucumis pepo, Apple-shaped; Pear-shaped in blover, white and striped, Not Moris, Flat striped. Japanese Nest Egg, small egg-shaped gourds used as nest eggs. Lagner, Hercules Club, Large Bottle Gourd, Flat Coriscan, Miniature, Powdered, Malabar Melon, Japanese Nest Egg, Diphy Gourd, Dish Gourd, Lufia, Dish-cloth Gourd, Acanthanglia, Cylindrica. Monorporica, Balsam Apple, Balsam Pear, Pumpkin, Hundred-weight, yellow, Globe, Mammoth, Bright Red, Gray Bouquet, Large Town, separate or mixed. These are edible and fine for pies. Small Fancy Gourds, mixed, very fine. Travellers Gourd, the Snake Gourd, and T. Cocinea, separate or mixed. Gourds and Cucumbers carefully mixed.

Humulus variegatus, the Japanese Hop; a beautiful vigorous ornamental vine; flowers white, in big panicles in autumn. Sow in autumn or early spring. Do not let the plants go to seed. This vine will climb 30 feet high, and make a dense mass of pretty green and white foliage, and feathery panicles of bloom; excellent for covering a summer house or hiding unsightly views.

Ipomea Mexicana Grandiflora alba, the Moon Vine; large, beautiful, fragrant, white flowers; a vigorous climber, much prized for its foliage and flowers; white and black seeds mixed. Start the seeds early.
Ipomea, beautiful vines of the Morning Glory type: foliage handsome and showy, and the flowers bright in color, abundantly borne throughout the season. Coechlea, small, yellow; small scarlet flowers; a rapid grower and very desirable, showy all day. Hederacea, Ivy-leaved vine, large, fine flowers, mostly variegated foliage. Blue, Rose, Azure, mixed. Huberli, beautiful colors mixed. Hesperus, white, scented. Limbata, sky blue, white edge. L. intensus, intense bright blue. Nigritta, dark blue, crimson flowers in abundance all season, until frost. Easily grown, splendid vines. Mikado Class: Blue, Brown, Carmine, White, Slate Blue, Light Blue, Carmine edged white, separate or mixed. Imperialis Class: Pure White; Copper, white throat; Thalia, green-leaved, white; Crimson, white throat; Blue, rose throat; Satin-rose; Pure White, rose throat; White speckled crimson; Carmine, white throat and border; Dark and Light Blue; separate or mixed. Collata Class: White, Carmine, Dark Blue with white border, Dark Blue, Copper-red, Slate Blue, Copper-red with white border, Rose, Lilac, Light Blue, Carmine with white border, Lilac with white border; separate or mixed. Mican, splendid sorts, mixed. Japanese Morning Glories, including all of the above splendid sorts in special mixture carefully prepared. Mr. Park. I never succeeded with Japan Morning Glory till I got your seeds. I started them in pots and transplant ed. I will never be without them again. Mrs. French, Wash. Mr. Park. Let me praise the old-fashioned Morning Glory. The vine becomes a mass of bloom of many rich colors and so beautiful. They come voluntarily. Mrs. McLand, Ind.

It is impossible to get seeds of these superabundant Morning Glories now. What seeds I have were secured last year, before the blight affected the trade seriously. All were carefully tested, as well as all other seeds I offer, and you can depend upon them. My stock is now limited, but the war continues; this is the last year I can offer them. Get them now, while they may be had.

Loasa Aurantiaca and Vulcana mixed. Very pretty clinging vines, with brick-red, and white and red flowers; six feet high; mixed.

Lophospermum Scandens, a handsome, vigorous, silvery vine with purple, bell-like flowers.

Maurandya, very dense, beautiful vine with tubular flowers in great profusion in autumn; makes a dense mass of graceful foliage, against which the flowers are set to good effect; fine for a trellis or for the pillars of a porch; is especially hardy here late, after frost has destroyed many annuals. Violet, Rose, White, Lilac, Dark Blue, Light Red. Antirrhiniflora with small lavender flowers. S. sempervirens with violet-red bloom, sep. or mxd. Maurandya is a Mexican vine of great beauty, and should be better known. Plants are easily raised from seeds, and never fail to elicit the admiration and praise of all who see them in autumn.

Mina lobata. a quick growing vine with clusters of scarlet bloom in autumn; start early; 20 ft. high.

Nasturtium (Tropaeolum), fleshy vines with clean, succulent foliage, and elegant, tall, showy, delightful fragrant flowers of a great variety; some rich colors and variegations, splendid for cutting. They are annual, and are useful for a trellis, for covering a rock, stump or large place in the garden, as they will climb, trail or drape, as you wish, always in bloom. I have all the fine colors, and can supply separate or mixed.

Giant Climbing, a very strong growing class with large leaves, and long-stemmed flowers: Scarlet, Orange, Silky Bronze, Bluish Rose, Flaked and Spotted, Yellow with brown spots, Dark Crimson, Yellow, Blackish-red, Pale Yellow, Terra-cota, Cream white, Rose Fawn, yellow mottled scarlet, Ruby violet, Brownish Lilac, Separate or mixed. Per $5 cts., $1 25 cts.

Lobelia, not so vigorous growth, but very free-blooming and beautiful, the flowers on long stems, richly scented, and fine for cutting: Crimson, Bright Scarlet, Copper, Yellow, yellow spotted red, Blood Red, Yellowish White, Rose-scarlet, Golden yellow spotted blood orange, Orange-scarlet, Scarlet, Golden Yellow, Yellow, Yellow-scarlet, Yellow-stained red, Dark Yellow with brown spots, Flaming Cinnabar, Pure Violet, Cardinal, Multiflorum scarlet, Flaming scarlet, Very scarlet, Cream-stained pink, Deep violet, Light Purple, Yellow stained Purple, Black-red, Firefly, Separate or mixed. Per $5 cts., $1 25 cts, or 25 cts.

Other Nasturtiums: Dark-leaved Sorts mixed, Ivy-leaved Sorts mixed, Madam Gunther Hybrids mixed, Variegated-leaved mixed, Vine-leaved flowered mixed. These offered by the ounce or packet.

Sweet Pea, Improved Large-flowered. The Sweet Pea is an indispensable. It is a hardy annual, and can be sown fall or spring. The vines are pretty and are covered with a profusion of beautiful, richly scented flowers on long stems, showy in the garden, and unsurpassed for cutting for personal adornment or bouquets. Sow in trenches in a sunny place, covering half an inch deep, and filling in as the plants grow. Furnish them with plenty of water. Early Trowel mulch or black mulch may be used. A mixture of Sweet Peas is unsurpassed, as it is a mixture of various varieties carefully proportioned, each price per 50 cents, $1 50 cts., 1 oz. 10 cts., and Park's Floral Magazine a year, for only 15 cents. My seeds are all tested, and will be found reliable. I can supply the following fine sorts separately:

Thunbergia Alata, a lovely free-blooming, evergreen climbing vine growing 18 ft.; high; alike valuable for winter or summer flowers; easily grown from seeds, showy and beautiful. Biff with dark eye, White with dark eye, Yellow, Orange, Pure White, separate or mixed.

Vicia Gerardi, a pretty annual climber with dark violet flowers in racemes, V. Atropurpurea, a species with handsome foliage and deep purple flowers, V. Unijuga, very handsome, with violet-purple flowers in dense racemes. Separate or mixed.
Biennials and Perennials.

**Acanthus**, showy, handsome perennials. Four feet high, shining foliage; purple, white, mixed.

**Achillea Ptarmica** ft. pl., attractive hardy perennial, foliage fine-cut, double, white, like Daisies.

**Aconitum**, Monkshood, 2 ft., spikes of fine rich-colored, hooded flowers, White, Blue, Wilsonii, mzd.

**Aemone Japonica**, beautiful Japanese sort; White, Rose, mixed. Sylvestris white. Penna. white. All mzd.

**Anthemis Kelwayii**, a splendid free-blooming hardy perennial, 2 ft. tall, flowering late fall; foliage; flowers soft pink, in clusters; thrives in shade.

**Aquilegia**, (Columbine), one of our best hardy perennials. Once started a bed will last for years, making a charming display every season. Plants are easily started, thrive in sun or shade, and bloom for many weeks. Do not omit this grand flower from your garden.

I keep these varieties: Baicalensis Blue, Californica yellow, Canadensis seeds, Chrysanthemum, Cornuta blue, white, yellow, and double; Durandii, seed, striped; E. caerulea, long spur; Helene, blue with white corolla; Niva, white and blue, also double. Truncata; Long-spurred Hybrids mixed; Violet, mixed; Siberica, blue, double; Compacta, double, mixed. Special Complete mixture of all sorts.

Mr. Park. Our first spring flowers are the lovely White. Azalea, Purple, Lavender, Red; some were over 2 ft. high. I want a large bed next year. Mrs. Bohn. Extra A.

**Echinacea grandiflora**, Louisiana Candytuft, hardy perennial flowers rose, in abundance, pretty.

**Agrostemma coronaria**, 18 in. high, free-blooming, bright crimson and white flowers, splendid; also A. Flos Alpinus, Pink, White, with rose center, mixed.

**Alyssum Saxatile**, gold-dowered; also Argen- tuens, Prostratum, Gemonens, mixed. Seed for seeds a day before sowing.

**Anchusa Italic**, Dropsmore, 3 ft, flowers rich blue in profusion; blooms in fall if sown early.

**Androscace coronopifolia**, Rock Jessamine; White, six inches high, makes a fine spring bed.

**Arabis alpina**, a choice, low, hardy early spring-blooming plant; blooms in late winter; white flowers.

**Arenaria Montana**, a low, spreading peren- nial; bears big, white flowers in terminal racemes.

**Armeria**, handsome tuft plant with large rose flowers on stems a foot high.

**Artemisia gracilis**, silvery, fragrant foliage. Secacum viride, elegant green foliage, 4 ft high.

**Asclepias tuberosa**, beautiful native plant a foot high; orange-scarlet, in big heads, very showy.

**Asphodelus luteus**, 3 ft, shining yellow flowers; looks well among shrubbery; easy to grow.

**Aster**, Perennial. Michaelmas Daisy; very free-blooming flowers circling them; bloom well first season when started early. Alpinus, dwarf, mixed. Boswarabicus, dwarf, purple, Nova Angliae, large, early-blooming; Spotted, Spotted Alba, yellow, brown. Rigolosi, half dwarf, lilac. Larea-flowered, mixed.

**Astillbe Davidii**, a splendid tall perennial from China, rose flowers, very pretty.

**Aubrieta**, low, hardy perennials that become a sheet of charming flowers in early spring; easily grown. Pimpripa purple, Leitchii carmine-pink, Deltoides, lilac.

**Baptisia australis**, 3 feet, strong, hardy plant; bears long spikes of rich blue pea-like bloom.

**Beechia**, 4 ft, large, spreading top, a mass of lovely blue. Antler-like bloom in late B. Latissima, perennis, 4 ft, hardy, Aster-like, showy

**Buphthalmum grandiflorum**, 8 feet tall, robust; golden daisies freely borne on top; hardy, grand.

**Campanula**, Canterbury Bell, biennials of great beauty; flowers large, bell-like, freely borne on tree-like plants 8 inches high; Single: White, Dark Rose, Light Rose, Dark Blue, Light Blue, Rose, Lilac. Mixed. Double: Light Rose, White, Blue, Purple. C. Caractea (Cup and Saucer), White, Rose, Lilac, Blue, sep. or mixed. Complete mixture of all classes and colors. Deans Improved Hybrids, mzd.

**Canarina**, sweet plant, bell flowers, buff.

**Carnation**, Hardy Garden, double, fragrant, very free-blooming and beautiful. White, Red, Yellow, mixed. Grecianum mixed. Dwarf Vienna mix. All mzd.

**Cerastium**, grandiflorium, one foot, white daisies in spring. Bielskei, Tomentosum, white, mzd. **Cineraria**, white foliage, fine for edging. Ciddisemis, snow-white, Diamond, pure white.

**Cirsium**, pulchellum, Ornamental Thistle. **Clematis**, various kinds in fine mixture.

**Convovulus**, althoids, hardy vine.

**Coreopsis**, grandiflora, a splendid perennial; 2 ft. big golden bloom; fine for cutting.

**Colchicum**, autumnale, autumn Crocus.

**Delphinium**, Perennial Larkspur, mostly tall plants with long spires of flowers; E. Purpureum Blue, White, Indigo, Sky Blue, mixed; Double Mixed, Formosum, blue, mixed. Complete mixture.

**Dianthus**, red, white, pink, double. Sweet William Pink, Deltoides, free-blooming Baby Pink mixed.

**Dictamnus**, fraxinella, Flame Flower; a beautiful hardy perennial, big trusses, White, Red, mixed.

**Echium**, Creticum, biennial; 1 foot, scarlet. **Plantagineum**, long racemes of rich violet bloom, mixed. **Echinops**, Sphaerocephalon, 6 feet, azure, Blue, violet, Ruthenicus, blue, very fine, mixed. **Eupatorium**, hirsutum; also Spicatum; French Willow; long spikes of handsome flowers, mixed.

**Erigeron**, pretty hardy perennials; Coulteri, white. **Atrofilius**, mixed. **Glaucis**, fine, Eulitor, Lilac, Meranthus, purple, Speciosus. Pulchellum. All sorts mixed

**Erinus alpinus**, fine border plant; flowers freely borne, purple, very handsome.

**Erodium maculatum**, 1 ft, geranium bloom. **Eryngium alpinum**, fine border plant, 2 ft. stems and globes of bloom blue.

**Eupatorium**, ageratoides, beautiful fall plants 2 feet, finely divided daisies.

**Fragaria**, Indica, Strawberry-like, golden flowers, fine for baskets, and carpeting in shade.

**Fragaria**, agresta, long wreaths of lovely white bloom; Known as Maiden’s Wreath.
Gaillardia Grandiflora, 1 ft; big, showy flowers, all season; fine for beds and cutting. May be mixed, or all one color.

Galega Officinalis, azure; Nana Rosea, 2 ft.; new, double, rose lilac, dwarf, beautiful.

Gentiana Grandiflora, indigo blue; Cruciata, light blue, tall; slow, yellow; all fine Gentians. Mixed.

Gerardia, new hybrids, mixed; lovely tubular flowers in long, dense spikes; splendid.

Geranium sanguineum, scarlet; Grandiflora, tall, very fine flowering plants.

CHOICE VEGETABLE SEEDS

I can supply Choice Vegetable Seeds of the kinds here listed at the prices quoted. All of these seeds are fresh and tested, and can be relied upon. I offer them with entire confidence as to their vitality and quality. They are delivered free at the prices quoted.

**Artichoke**, Jerusalem, tubers, 20c per lb., prepaid; by express, at purchasers' expense, $1.00 per peck, $5.00 per bushel. These are rare, choice and excellent for pickles; also for feeding stock.

**Asparagus**, Large Green Globe. A delicious early vegetable, the bracts of the immense flower heads being boiled and used as Asparagus. Free second year. 1 pkt. 5c, oz. 5c, lb. 15c.

**Beans**—(Bush or Snap). Referee, Early Stringless Green Pod, Black Wax, Early Mohawk; also, Improved, oz. 5c, lb. 25c; Red Valentine, Hodson's Kidney Wax, Weber Wax, Davis White Kidney Wax. Extra Early Referee. Per pkt. 5c, pint 40c, quart 75c.

**Beets**—(Pole), Old Homestead, Lazy Wonder, Osage, Custer, Scarlet Runner; also, Speckled Cranberry. Per pkt. 5c, pint 50c.

**Boston Lettuce**—Early, Early Jersey, King of the Garden, Large White, Carolina, Sierra, Early Express, etc. Per pkt. 5c, pt. 40c, qt. 50c.

**Collards**—Should be grown in sheltered places. Early, Long Island, $1.50.

**Early Collards**—grown in fall for sprouting in spring, are a substitute for Lettuce. Per pkt. 5c, oz. 10c, lb. 1.00.

**Cress**, curled, used as salad. Per pkt. 5c, oz. 10c, lb. 1.00.

**Watercress**, Should be grown in shaded fresh water, used for garnishing and as "greens". Per pkt. 5c, oz. 25c.

**Cucumber**, Early White Spine, Jersey Pickle, Los Blancos, Early Cluster, West India Gherkin. Per pkt. 5c, oz. 15c, lb. 1.00.

**Dandelion**, Large-leaved French; used as early greens. Per pkt. 5c, oz. 25c.

**Egg Plants**—New York Purple, Black Pekin, Early Delicata. Per pkt. 5c, oz. 15c, lb. 1.00.

**Kale**—Dwarf Curled Scotch. Per pkt. 5c, oz. 25c.

**Kohlrabi**, Early Purple Vienna; a choice sort, fresh, white and delicate. Per pkt. 5c, oz. 25c. A vegetable with cabbage-like flavor.

**Leek**, American Flag, a sort of mild-flavored "onion"; smooth, solid, un- thorny heads use in soups or when young as "scallions". Per pkt. 5c, oz. 25c, 1 lb. 50c.

**Lettuce**, Early, Cimminson, Big Boston, Queen, Perfect Salamanter, New York, Improved, Pericot, etc. Also, Improved Cole's Gem, Mammoth Black-seeded But- ter, Speckled Dutch Butter, Grand Rapids. Per pkt. 5c, oz. 15c, lb. 1.00.

**Mushroom Spawn** (fresh), 1 lb. 20c, by mail. 1 lb. 1.00. Prepaid, not prepaed.

**Mustard**, White London, Chinese Curled, Southern Giant Curled. For salads and garnishing when young. Per pkt. 5c, oz. 10c, lb. 25c.

**Onion**—A favorite for salads, and for green; pods used for soups, stews, etc. Per pkt. 5c, oz. 25c.

**Peas**: Alaska, Bliss Everbearing. A-bundance, Champion of England, Marrowfat, Tall Melting Sugar, Dwarf Everbearing Sugar; also Gradeus or Prosperity. Per pkt. 5c, oz. 15c, lb. 30c.

**Rhubarb**—Pie Victoria, Per pkt. 5c, oz. 25c, lb. 1.00.

**Spinach**—Long Standing, Prickly Seeded, Victoria also, Savoy-leaved. Per pkt. 5c, oz. 25c, lb. 1.00.

**Squash**—Golden Summer Crookneck, Extra Early Bush, Mammoth Chili, Hubbard, Fordland, also, Boston Marrow. Per pkt. 5c, oz. 10c, lb. 50c.

Note The Early Delicata Squash is the best all around Squash. It is fine and we consider it invaluable for winter use. It is not large, but each squash is big enough to be used and hence it is very productive. See notes planted in early June, and the squash- es are ready for picking and good for soups and pies, and for baking. We believe they are the best squash. Special prices, oz. 25c, lb. 1.00, lb. 1.00.

**Tomato**, Atlantic Prize, Improved Beauty, Eayana, Early Egg, True New, Stone, Dwarf Stone, Ignocum, Ponderosa, Golden Queen, Golden Trophy, Pear-shaped, French; Bulk, Salsify, Matchless. Per pkt. 5c, oz. 25c, lb. 1.00.

Per pkt. 5c, oz. 25c, lb. 25c.

**Miscellaneous**, Evergreen Broom Corn, 1 lb. 25c, mailed; 25 lbs. or more, by express, 10c per lb. Sunflower Russian, 1 lb. 25c, mailed; 25 lbs. or more, by express, 5c per lb. White Dutch Clover for bee pasture and seed, oz. 25c.

**Park's Superior Lawn Grass**, the best of all lawn grass mixtures; makes a fine lawn the first season, and is hardy. Per oz. 25c, oz. 15c, lb. 1.00, lb. 1.00. Prepaid, not prepaid, 5c per lb. Sunflower Russian, 1 lb. 25c, mailed; 25 lbs. or more, by express, 5c per lb. White Dutch Clover for bee pasture and seed, oz. 25c.

**Park's Superior Vegetable Seed**, raised from a special seed strain; it is one of those rare remedies for Mealy Bug and Spider Rust. It is an excellent plant for the veranda or window sill, by spraying or sponging. Every window gardener should have a supply. per lb. 30c mailed.

GEO. W. PARK, LaPark, Pa.
Agapanthus umbellatus, African Lily, vigorous Lily-like plants with evergreen strap-like foliage, and umbels of blue or white flowers on a strong scapose a foot high. Shift into the pots, grow, or the roots will burst the crowded pot. Price 25 cents.

Amaryllis, Alisbert Giant, the finest of the Amaryllis. Immense flowers, lily-like in form, at the summit of a strong scapose. Various colors, 15 cts. each. Slightly marked at the throat also scarlet with star and rich crimson, each $1.00.

Amaryllis Halli, the well-known old-fashioned Amaryllis, red with white bands through the flower. 35 cts.

*Amaryllis Halli* Halli, hardy, fine bulbs, 30 cents each. This is known as Lycoris Squamigera. Highly recommended.

*Anemone* Japonica, elegant late fall flowers, coming just before the hardy Chrysanthemums. Grow two feet high, with large, Daisy-like flowers, very beautiful. Hon- orable Jobert white, Koese rose, thistledown double yellow, crimson, 15 cts each. 30 cts each.

*Anemone* Fuglens fl. pl., the beautiful double scarlet Wind Flower. This is known as Peacock Anemone, and a bed of it is very attractive. It likes full sun. Rich, porous soil, on a northern slope. 8 cts each, 80 cts. per doz.

Antholyza, A South African plant of the Iris family. Two feet high, bearing handsome flowers. 15c. $1.50 a doz.

Aspedita lurida variegata. This is a graceful foliage plant, almost hardy in the eastern section of the United States when grown in good soil. The leaves are strap-shaped, arching and handsome. In the variegated sorts they are attractively striped creamy white. Price 5 cts., small plants. The single-leafed, 15 cts each, mailed.

Begonia Cristata Double. I can now supply double-flowered Begonia Cristata, Scarlet, Pink, Red, and Orange colors. Price 15 cts each, or the lot of six varieties for 75 cents. These are new, and I have never before been able to get them. The single-flow- ered, which are also new and beautiful are offered on the next page, which see.

Belladonna Lily, rose-colored, tubular flowers in umbels, 25 cents each.

Caladium esculentum, a grand foliage plant, doing well in dense shade. Give it rich, sandy soil, and water freely while growing. Under good conditions stems will be 3 ft. feet tall, bearing leaves two to three feet long. Start the tubers early, and water sparingly till growth begins. Large tubers 20 cts. $2.00 per dozen. Smallest 10 cts. $1.00 per dozen. Smallest 5 cts., 50 cts. per doz.

Caladium, Fancy-leaved, very beautiful foliage pot plants at the north, and fine for growing out of doors. The leaves are richly blotched, spotted and veined with white or pink or carmines of some having a background of green or white or flesh, and some showing rich carmine with a narrow white margin or tint of green. They are among the most beautiful of foliage plants. They like a shady situation and moist atmosphere. Pot in rich, very sandy soil with good drainage, and keep well watered while growing. Get the plants in April or May to insure success. I offer the following splendid named sorts:

Blanche Wise, glossy white center with large blood-red spots, gray-white zone, green border, strong grower, 25c. Multibyle, very large, deep green leaves with transparent splashes of white and rose, red veins, 25 cts. Harold, green ground, spotted white, center of leaf and ribs deep pink to crimson. Multibyle, 20 cts. Coacoacoochee, bright deep pink shading to metallic green, becoming almost white with green border. 25 cts. Vorperier, light green, with many transparent bluish white and pink spots, light green ribs. A beautiful sort. 25 cts.

Calla. Large-flowered White, fine blooming-sized tib- bers, 15 cts. each. $2.00 per dozen. C. Periclymenum, a fine improved Calla bearing large foliage and large handsome flowers, 20 cts. each. C. E. LEHMAN, pure golden yellow to lavender, a very vigorous grower, 25 cents each.

*Crinum* Powelli, the new hardy Crinum, a foot high, with large trumpet-like rose and white flowers in an umbel, each 15 cents each, 25 cents per dozen.

DahliA. Double, finest named varieties. White, Scarlet Rose, Crimson, Purple, Yellow, Pink, and Variegated, each 15 cents. $1.50 per doz.

*Funkia* orange, Siebold, Undulate variegate, Fortune, etc. 15 cents each, $1.50 per doz.

**Canna.** This is a fine bedding plant, continuous-blooming and beautiful the entire season. Plants grow four feet high, bearing long trusses of beautiful flowers. Make the bed in a rich soil deep, rich and sandy, and set the plants 15 inches apart. Make the bed when hot weather comes, and the plants will bloom and make a glorious display. I will send the lot started an early in May, for $2.50, delivering by parcel post to any point east of the Mississippi River. Single plants, many fine named sorts, 15 cents each.

**Hemerocallis.** Day Lily, Sieboldi, early flowering, golden blooms in clusters. Flava, bright yellow, fragrant. Thunbergii, similar to Flava, but a month later. Pulva, 2 ft., large, orange-scarlet. *A.** Orange, 2 ft., but double, large, rich scarlet, $1.50 each, 15 cents each, 25 cents per doz.

**Galtonia** Candicans, the summer Hyacinth, 10 cents each, 1$1.00 per dozen. 30 cts. per doz.

**Gladilious.** French Hybrids in finest mixture, not large, but blooming sized bulbs, 3 cents each, or $2.00 per hundred, prepaid. Grof's Hybrids in finest mixture, 5 cents each, $4.50 per hundred, post paid. $1.00 each, $10.00 per dozen.

**Gladilious** Named, Augusta, Lily Leman, White Glory of Holland lavender, Klokoliko yellow, with Spigman rose, Baron Hulot blue, America pink, Brencheley's scarlet, Halley, salmon. Mrs. F. King, scarlet. 10 cents each, $1.00 per dozen.

**Gladilious** Primulina, see bottom of page. Pure golden yellow, 10 cents each, $1.00 per dozen. Primulina Hybrids, new hybrid varieties, mixed colors 8 cents each, 50 cts. per doz.

**Gladilious** trimaculatus, spotted, grows two feet high, flowers in spikes, 10 cents each, $1.00 per dozen.

**Hyacinthus** Mutica, bell, golden, *T.** Germanica, bell, which flowers the entire season, white, purple, blue. Siberica mixed. Aline, Chereen. Paillia Dalmatina Pumila mixed. Festidistema variegate. Any sort 15 cents each, $1.50 per doz.

**Lilium Auratum.** gold-band Japan Lily, huge, spotted, fragrant flowers. Large bulbs, 30c. each, $3.00 a doz.

**Lilium Henryi,** grand, new, hardy sort, 10 ft. high when in rich soil and well established, 30c. each, $5 a doz.

**Lilium Lancifolium** Album, white. Rubrum red. The finest and hardiest of Lilies, improving with age. Melpomene, like the others, but darker. 25c. each, $2.50 a doz. *Medeira Vinea,* a fine named sort, Double rich and massive, clean and not troubled with pests. Flowers white in graceful racemes, richly scented, in great profusion. Climb 50 cts. each, 15 cts. each, 30 cts. each.

**Nelumbium** intum, big, hardy, Egyptian Lotus, huge umbrella-like leaves, giant flowers. Price, in May, 50c.

**Oxalis** rosea, fine for baskets or edgings. Also Buttercup Oxalis, Bowl, Versicolor, Cernua, 5c. each, 50c. a doz.

**Paeony,** Chinese, known as *P.** Grandiflora, a beautiful porch vine, the foliage rich and hardy, 30 cts. per doz.

**Tulipa, Red Hot Potter,** 20 cts. each, 50c. a doz. *T.** Hirta, hirta, Japanese Toot Lily, 2 ft. high, with large spotted flowers in fall, likes shade, 10c. ea., $1.00 a doz.

**Water Lily,** large, white with golden center, beautiful and fragrant. 25 cents each, $2.50 per doz.
**SPLENDID TUBEROUS BEGONIAS.**

I HAVE a fine collection of Tuberous Begonias of the best Belgian strains which I offer at a bargain, because the English Government will not allow flowering bulbs, plants or tubers to be shipped into its country, and the price to American Importers is low in consequence. The tubers I offer are of the best size, about three inches in circumference, and will produce the finest flowers.

### BELGIAN BEGONIA CRISTATA, NEW.

This is a beautiful New Tuberous Begonia, each flower showing a crest or crown in the center. I have but a limited quantity of these, but offer them at a low price. They are very rare.

- Single-flowered Pink
- Single-flowered White
- Single-flowered Salmon

I offer the entire collection of six Begonia Cristata in six fine colors for only 50 cents.

### Begonia Marmorata.—This is a Single-flowered Begonia, with large, broad petals beautifully marked or marbled. Thus far it is the only Begonia with variegated flowers known. It is easily grown, and greatly admired. 10 cents each, six tubers for 50 cents.

### Belgian Gloxinias.—These are of the finest Giant-flowered strain, and I offer them as follows:

- Pure White, 10 cts. | Superb Spotted, 10 cts. | Red with White Margin, 10 cts.
- Pure Blue, 10 cts. | Superb Blue, 10 cts. | White, 10 cts.

The entire collection of six splendid Gloxinias in six fine varieties, only 50 cents. See Engraving.

**Glocharia Primulinus**, the new and elegant rich pure yellow Glocharia recently found in South Africa, fine bulbs 10 cents each, $1.00 per dozen. These Tubers and Bulbs are now on hand and ready to mail. Order early, before the stock is exhausted. Address **GEO. W. PARK, LaPark, Pa.**
